# **USE DIRECTIONS:**

Use at 2 ounces per gallon. This product will be effective against Pseudomonas aeruginosa PRD-10 at this level. This has been substantiated by the AOAC Use Dilution Confimation Test. At this level, the product is fungicidal against pathogenic fungi.

For best results, use with a cloth or mop and apply to walls, floors and other hard surfaces.

If used for sanitization of food equipment or food contact items, limit the level of active quaternary to 200 ppm. (2.8 ounces per 5 gallons). Treated food contact surfaces must be thoroughly scrubbed with detergent and rinsed with potable water prior to reuse.

For heavy soil or organic matter, a precleaning step is recommended.

### PHENOL COEFFICIENTS:

Guaranteed	Minimum				
S. aureus	42				
S. typhosa	27				

Rinse empty container thoroughly with water and discard. Do not reuse empty container.
