

DIRECTIONS FOR USE

Uniformly spray one gal. of Vegetation Killer mixed in ten gal. of water over 1,000 sq. ft. of soil surface. Thoroughly wet all foliage to insure contact action. Best results are obtained when applications are made during or after weed emergence while growth is succulent. Where vegetation is tall and dense, use 1½ gal. of Vegetation Killer in ten gallons of water per 1,000 sq. ft. For control of hard-to-kill perennial weeds and grasses such as johnsongrass, bindweed, and wild carrot, use 3-4½ gals. per 1,000 sq. ft. Although Vegetation Killer has considerable activity through foliar contact, much of its activity is through the roots and, therefore, adequate rainfall to move the chemical into the root zone is necessary.

Under conditions where the rainfall is high and the growing season long, a second application may be necessary to maintain a weed-free soil surface.

Care must be taken to keep this herbicide away from desirable flower beds, lawns and shrubs. Do not apply over roots of valuable trees or woody ornamental plants. Only apply herbicide outside the dripline of trees. Avoid spray drift to desirable plant.

STORAGE AND DISPOSAL

- *Open dumping is prohibited.
- *Do not contaminate water, food, or feed by storage, disposal, or cleaning of equipment.
- *Do not store near other pesticides or seeds.
- *Product, spray mix, or rinse mix that cannot be used or chemically processed should be disposed of in a landfill approved for pesticide disposal or or buried in a safe place away from water supplies.
- *Container Disposal —
 - a) reseal container and offer for reconditioning or—
 - b) Triple rinse (or equivalent) and:
 - 1) offer for recycling or reconditioning
 - 2) Dispose in approved landfill
 - 3) Bury in a safe place.
- *Consult Federal, State, or local disposal authorities for approved alternate disposal procedures.

NON SELECTIVE HERBICIDE No. 3

VEGETATION KILLER

For non-selective weed control on non-cropland areas such as parking lots, fence rows, railroad sidings, drainage ditch banks, storage yards, around buildings or industrial sites.

ACTIVE INGREDIENTS:

Prometon: 2,4-bis (isopropylamino)-6-methoxy-s-triazine*

3.73%

Petroleum distillate

81.04%

INERT INGREDIENTS:

15.23%

TOTAL:

100.00%

CAUTION

Keep Out of Reach of Children

Harmful if swallowed. May cause skin irritation. Avoid contact with eyes and skin. In case of skin contact, wash with soap and water. In case of ingestion, do not induce vomiting. Call a physician immediately.

Important: Read the entire Directions for Use and the Conditions of Sale and Warranty before using this product.
