Attn: Steven M. Hipp
Technical Service Specialist

Subject: MB-305
EPA Registration No. 10088-70
Letter Dated October 3, 1995

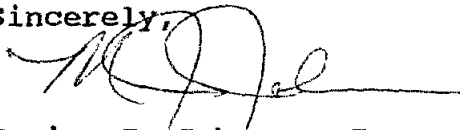

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, to comply with PR Notice 95-1, is acceptable, provided that you make the labeling change listed below before you release the product for shipment bearing the amended label.

1. Delete the term "General Classification" from the label since the use of pesticide is not classified.
2. In the future, please note that specimen labels are not a substitution for draft labels.

A stamped copy of the labeling is enclosed for your records. Submit one copy (1) of final printed label prior to release of the product for shipment.

If you have any questions concerning this letter, please contact Martha Terry at (703) 305-6982.

Sincerely,

Marion J. Johnson, Jr.
Product Manager (31)

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING

Causes eye damage and skin irritation. Harmful or fatal if swallowed. Do not get in eyes, on skin or clothing. Wear goggles or face shield and rubber gloves when handling. Avoid contamination of food.

STATEMENT OF PRACTICAL TREATMENT

IF IN EYES: Flush eyes and under eyelids with plenty of water for at least 15 minutes. Call a physician immediately.

IF ON SKIN: Remove contaminated clothing and launder before re-use. Flush skin with plenty of water for at least 15 minutes.

IF SWALLOWED: Drink milk, egg whites or gelatin solution, or if these are not available, drink large amounts of water. Avoid alcohol. Call a physician immediately.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

as amended, for the pesticide
registered under EPA Reg. No.
10088-70

DIRECTIONS FOR USE

GENERAL CLASSIFICATION

It is a violation of Federal law to use this product in a manner inconsistent with its label.

This product is used to control algae and bacteria in recirculating commercial and industrial water cooling towers. Prior to its use, systems must be cleaned to remove algae growth, microbiological slime and other deposits. An initial slug addition of 5.1 to 10.2 fluid ounces per 1000 gallons of water is recommended.

Subsequent slug additions of 1.7 to 10.2 fluid ounces per 1000 gallons of water should be employed every 1 to 5 days, or as needed. The frequency of addition depends upon the relative amount of bleed-off and the severity of the microbiological problem. Slug additions should be made in the sump of water cooling towers.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

STORAGE: Store in a dry place no lower in temperature than 50°F. or higher than 120°F.

CONTAINER DISPOSAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.
