P.O. Box 23926
Milwaukee, Wisconsin 53223

Subject: Revised Labeling--Food Handling Establishments
Surface Insecticide
EPA Registration Number 10088-85
Your Application Dated March 4, 1997

Dear Mr. Rego:

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act as amended, is acceptable provided that you make the labeling changes indicated below before you release the product for shipment bearing the amended labeling:

1. In the paragraph immediately below "CAUTION: KEEP OUT OF REACH OF CHILDREN," delete "Do not use in edible product areas of food processing plants, restaurants and other areas where food is commercially prepared or processed."
2. Replace "SOLD BY: SPECIMEN LABEL" with "SOLD BY [your company name and address]."

Submit five (5) copies of your final printed labeling before you release the product for shipment.

A stamped copy of the labeling is enclosed for your records.

Sincerely yours,

/s/

Dennis H. Edwards, Jr.
Product Manager (19)
Insecticide-Rodenticide Branch
Registration Division (7505C)

FOR USE IN AREAS OF HOTELS AND MOTELS, COMMERCIAL BUILDINGS, SCHOOLS, WAREHOUSES AND THEATERS

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its label.

GENERAL: Spray surface until wet. Spray away from people, plants and pets. Do not use as a space spray. Use only for spot treatment.

ANTS, ROACHES, CRICKETS, SILVERFISH, SOWBUGS, SPIDERS, EARWIGS: Spray into cracks, crevices, around baseboards and other places where insects hide. Apply behind and beneath cabinets, refrigerators, sinks, stoves, in and around waste containers. Contact directly as many insects as possible. For ants, spray trails and places where ants enter premises. Repeat as necessary for control.

TO KILL BROWN DOG TICKS AND FLEAS: Old bedding of pets should be removed and replaced with clean, fresh bedding after treatment of pet areas. Additionally, treat pets with an EPA registered product approved for direct application to pets.

TO KILL CARPET BEETLES AND DERMESTIDS: Spray along baseboards, edge of carpeting, under furniture, in closets, on shelving, and in other places of harborage. Repeat if necessary.

APPLICATION WITHIN FOOD HANDLING ESTABLISHMENTS (places other than private residences where food is held, processed, prepared or served) including, but not limited to, restaurants, grocery stores, bakeries, bottling plants, canneries and grain mills: Use as a spot treatment in and around both food and nonfood areas to control cockroaches (including strains resistant to other insecticides), ants, crickets, firebrats, silverfish, spiders and stored product pests such as confused flour beetles, saw-toothed grain beetles, Indian meal moths, rice weevils, Mediterranean flour moths, and red flour beetles. Apply as a coarse, low pressure (20 psi or less) spray to localized areas. Do not introduce spray into the air or allow spray to contact food or food contact surfaces. Areas treated may include dark corners of rooms and closets, along and behind baseboards; beneath and behind stoves, refrigeration units or similar food preparation areas and equipment; floor drains; and around plumbing and other utility installations. For ants, apply to ant trails and wherever these pests may find entrance. Spot treatment may encompass crack and crevice treatment by applying small amounts of product directly into openings leading to voids and hollow spaces in walls, equipment legs and bases, between equipment and floors, or at points between different elements of construction. Use spray equipment capable of delivering a pin stream of insecticide. Repeat treatment as needed but not more than once every 7 days in restaurants and similar food service establishments or more often than once every 14 days in other types of food handling establishments. In case of emergency callback, this product may be applied after 2 days from the last treatment, but emergency use should be limited to once per month. APPLICATION OF THIS PRODUCT IN FOOD HANDLING ESTABLISHMENTS OTHER THAN AS A SPOT AND/OR CRACK AND CREVICE TREATMENT IS NOT PERMITTED.

PRECAUTIONARY STATEMENTS:
HAZARDS TO HUMANS & DOMESTIC ANIMALS

CAUTION: KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed, inhaled or absorbed through the skin. Avoid breathing spray mist and provide adequate ventilation of area being treated. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after using. Avoid contamination of food, utensils and food preparation areas. Do not use in edible product areas of food processing plants, restaurants and other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed.

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: Call a physician or Poison Control Center immediately. Do NOT induce vomiting. Aspiration is a potential hazard. NOTE TO PHYSICIAN: Atropine sulfate is antidotal.

IF ON SKIN: Remove contaminated clothing and launder before re-use. Wash skin thoroughly with soap and water. If irritation persists, obtain immediate medical attention.

IF IN EYES: Flush eyes and under eyelids with plenty of cool water for at least 15 minutes. If irritation persists, obtain medical attention.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds and other wildlife. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of equipment washwaters.

PHYSICAL AND CHEMICAL HAZARDS

Do not use or store near heat or open flame.

STORAGE AND DISPOSAL

Do not contaminate water, food, feed, or fertilizer by storage or disposal. Open dumping is prohibited.

CONTAINER DISPOSAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, in incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

PESTICIDE DISPOSAL: Waste resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

SURFACE INSECTICIDE

CHLORPYRIFOS RESIDUAL SPRAY WITH SYNERGIZED PYRETHRINS

ACTIVE INGREDIENTS:

Chlorpyrifos ** [0,0-diethyl	
0-(3,5,6-trichloro-2-pyridyl)phosphorothioate]	0.500%
Pyrethrins	0.050%
Piperonyl butoxide, technical*	0.100%
N-octyl bicycloheptane dicarboximide	0.166%
INERT INGREDIENTS	98.184%
TOTAL	100.000%

* Equivalent to 0.08% (butylcarbitol)(6-propylpiperonyl) ether and 0.02% related compounds.
