DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its label.

To control most weeds and grasses for extended periods on non-cropland areas such as industrial plant sites, parking lots, loading ramps and around storage buildings and similar non-crop areas, apply 1 to 4 gallons of VEGETATION CONTROL per 1000 square feet. Apply this herbicide after the most predominant weeds have emerged. No agitation is required. VEGETATION CONTROL can be applied with standard spray equipment. For treating small areas, a tank type hand sprayer or sprinkling can may be used.
