OFFICE OF
PREVENTION, PESTICIDES
AND TOXIC SUBSTANCES

Mr. Adam Swader
Athea Laboratories, Inc.
P.O. Box 240014
Milwaukee, WI 53224

MAY 11 2010

Subject: Label Notification(s) for Pesticide Registration 2007-4

Dear Mr. Swader:

The Agency is in receipt of your Application(s) for Pesticide Notification under Pesticide Registration Notice (PRN) 2007-4 dated for March 25, 2010

EPA Registration Number: 10088-93 Powdered Insecticide

The Registration Division (RD) has conducted a review of this request for applicability Under PRN 2007-4 and finds that the label change(s) requested falls within the scope of PRN-2007-4. The label has been date-stamped "Notification" and will be placed in our records.

Please be reminded that 40 CFR Part 156.140(a)(4) requires that a batch code, lot number, or other code identifying the batch of the pesticide distributed and sold be placed on non-refillable containers. The code may appear either on the label (and can be added by non-notification/PR Notice 98-10) or durably marked on the container itself.

If you have any questions, please contact Melody Banks on 703 305-5413.

Sincerely,

Richard Gebken
Product Manager
Insecticide Branch
Registration Division (7504P)

**Subject: Storage and Disposal Update
Powdered Insecticide
EPA Registration No. 10088-93**

To Whom It May Concern:

Please find the enclosed one label marked with changes and Form 8570-1 stating the following:

Notification of label change per PR Notice 2007-4. This notification is consistent with the guidance in PR Notice 2007-4 and the requirements of EPA's regulations at 40 CFR §§ 156.10, 156.140, 156.144, 156.146, and 156.156. No other changes have been made to the labeling or Confidential Statement of Formula for this product. I understand that it is a violation of 18 U.S.C. SEC. 1001 to willfully make any false statement to EPA. I further understand that if the amended label is not consistent with requirements of 40 CFR §§ 156.10, 156.140, 156.144, 156.146, and 156.156, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA.

If there are any questions in regards to this notification please contact me at 414-354-6417 ext. 215 or email me at aswader@athea.com.

Thank You,

POWDERED INSECTICIDE

PROVIDES QUICK CONTROL

KEEPS ON WORKING FOR UP TO 6 MONTHS WHEN UNDISTURBED

CONTAINS THE BOTANICAL INSECTICIDE PYRETHRUM, AN EXTRACT OF THE CHRYSANTHEMUM FLOWER

ACTIVE INGREDIENTS:

Pyrethrins 1.00%
• Piperonyl butoxide, Technical 10.00%
Silicon Dioxide 60.00%

INERT INGREDIENTS:

TOTAL 29.00%
• Equivalent to 8.00% (butylcarbitolyl(6-propylpiperonyl) ether and 2.00% related compounds).

KEEP OUT OF REACH OF CHILDREN CAUTION

FIRST AID:

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

Have the product container or label with you when calling a poison control center or doctor or going for treatment. For information on this pesticide (including health concerns, medical emergencies or pesticide incidents), call the National Pesticide Information Center at 1-800-858-7378.

For information on product, usage, etc., call 1-800-XXX-XXXX.

EPA Reg. No. 10088-93

EPA Est. 10088-WI-1

NET CONTENTS:

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Harmful if absorbed through skin. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling. Avoid contamination of food and feedstuffs.

ENVIRONMENTAL HAZARDS:

Do not contaminate water when disposing of equipment washwaters.

PHYSICAL OR CHEMICAL HAZARDS:

Do not use or store near heat or open flame.

POWDERED INSECTICIDE contains the quick killing botanical insecticide, pyrethrum, an extract of the chrysanthemum flower, which provides effective control of insects upon direct contact with an added benefit of flushing these insects to aid in a more complete kill. The silicon dioxide, in this product, provides long term control through a desiccating (drying) action. Put the powder down and insects walking on it will continue to die for up to 6 months.

KILLS INSECTS ON CONTACT SUCH AS: Ants, Carpenter Ants (Eastern/Western), Fire Ants, Pharaoh Ants, Bedbugs, Beetles, Confused Flour Beetle, Dermestids(Carpet Beetles), Red Flour Beetle, Booklice, Boxelder Bugs, Carpenter Bees, Centipedes, Cockroaches, American Cockroach, Asian Cockroach, Australian Cockroach, Brown Banded Cockroach, German Cockroach, Oriental Cockroach, Smokey Brown Cockroach, Crickets, Earwigs, Firebrat, Fleas, Hornets, Lice, Millipedes, Mites, Cheese Mites, Dust Mites, Palmetto Bugs, Pillbugs, Scorpions, Silverfish, Sowbugs, Spiders, Foraging Drywood Termites, American Dog Tick, Brown Dog Tick, Gulf Coast Tick, Lone Star Tick, Yellow Jackets, Wasps, Waterbugs

GRAMARY INSECTS: Flat Grain Beetle, Cadelle, Cigarette Beetle, Lesser Grain Borer, Dark Mealworm, Rice Weevil.

STORED PRODUCT PESTS: Bees, Drugstore Beetle, Flour Beetle, Merchant Grain Beetle, Sawtoothed Grain Beetle, Warehouse Beetle, Grain Mites, Grain Weevil, Yellow Mealworm, Weevils.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ ALL DIRECTIONS COMPLETELY BEFORE USE.

Not for use in Federally inspected Meat and Poultry Plants. Do not apply this product in hospital patient rooms while occupied or in any rooms while occupied by the elderly or infirm. Do not apply in classrooms while in use. Do not apply in institutions (including libraries, sport facilities, etc.) in inaccessible areas where occupants are present.

APPLICATIONS WITHIN FOOD/FEED AREAS: In food/feed processing plants and warehouses, bakeries, beverage and bottling plants, restaurants, schools, kitchens, supermarkets, meat and poultry processing plants, hotels, motels, "spit" cooking areas, meat, poultry and other livestock areas, unit to crack and crevice treatment only.

FIRE ANTS: Sprinkle 2 tablespoons over fire ant mounds less than one foot in diameter and 3 tablespoons over mounds greater than one foot in diameter. For best results, apply when ants are active and avoid treatments in heavy dew or before rainfall. Do not disturb ants while applying this product. Do not water after application. Depending on the size of the mound, it may take up to one week to kill the fire ants. Therefore, wait seven days before reapplying this product. Repeat application only if ants reappear. It should not be used as a barrier treatment or as a prophylactic measure. Treat new mounds as they appear.

DRYWOOD TERMITES: To protect against entrance, using an electric or hand operated rotary duster, distribute this product through an entry, crawl hole into attic and crawl space of building at a rate of 12 ounces per 1000 square feet. All vents and blowers on the windward side should be closed. Contact all wood surfaces. In case of localized infestations, probe to locate galleries and drill holes to inject this product into the galleries. If a reasonable heavy infestation is suspected, professional treatment should be employed. Repeat as necessary.

BEES, HORNETS, YELLOW JACKETS AND WASPS: It is generally advisable to treat nests in the evening when insects are less active and have returned to the nest. Using hand or power duster or other suitable means, with extension tubes, if necessary, thoroughly dust nest and entrance and surrounding areas where insects alight. Nests in wall voids can be located by placing your ear against the wall. To treat, drill a hole in the area. For best results crack nests carefully one or two days after treatment to ensure complete kill. Then remove and destroy nest to prevent emergence of newly hatched insects. If removal is not feasible, retreat the nest, if necessary. Do not use this product to treat overhead nests. Repeat as necessary.

SEWER TREATMENTS: Cockroach infestations in sanitary sewers may be treated with approximately 4.5 ounces of this product per manhole. When treating sewers, one manhole per 200 feet of line should be treated. Treatments are made by removing the manhole cover and replacing with a disc of plywood bored to receive the usual flexible hose from portable to truck mounted ventilating equipment. 4.5 ounces of this product is introduced into the ventilating air to be dispersed quickly and thoroughly through the system. Repeat as necessary.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

Pesticide Storage: Store in a cool, dry area. Always store pesticides in the original container. Store away from food and pet food.

Pesticide Disposal: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

Container Disposal: Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available.
