Subject: Notification per PR Notice 2007-4  
C-Spray Disinfectant Deodorant  
EPA Registration Number: 10088-105  
Application Date: March 25, 2010  
Receipt Date: April 7, 2010

Dear Mr. Swader:

This letter acknowledges receipt of your notification submitted under the provisions of PR Notice 98-10 and FIFRA section 3 (c) 9.

**Proposed Notification:**

Update Container Disposal statements per PR Notice 2007-4.

**General Comments:**

Based on a review of the submitted materials, your notification to update the container disposal statements per PR Notice 2007-4 is acceptable and apart of the records on file.

If you have further questions concerning this letter, please contact me by telephone at (703) 308-6416 or by e-mail at [campbell-mcfarlane.jacqueline@epa.gov](mailto:campbell-mcfarlane.jacqueline@epa.gov) or Killian Swift by telephone at 703-308-6346 or by email at [swift.killian@epa.gov](mailto:swift.killian@epa.gov). When you are submitting information or data in response to this letter, send a copy of this letter to accompany the submission. In order to facilitate processing.

Sincerely,

*Jacqueline Campbell-McFarlane*

**Subject: Storage and Disposal Update  
C-Spray Disinfectant Deodorant  
EPA Registration No. 10088-105**

To Whom It May Concern:

Please find the enclosed one label marked with changes and Form 8570-1 stating the following:

Notification of label change per PR Notice 2007-4. This notification is consistent with the guidance in PR Notice 2007-4 and the requirements of EPA's regulations at 40 CFR §§ 156.10, 156.140, 156.144, 156.146, and 156.156. No other changes have been made to the labeling or Confidential Statement of Formula for this product. I understand that it is a violation of 18 U.S.C. SEC. 1001 to willfully make any false statement to EPA. I further understand that if the amended label is not consistent with requirements of 40 CFR §§ 156.10, 156.140, 156.144, 156.146, and 156.156, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA.

If there are any questions in regards to this notification please contact me at 414-354-6417 ext. 215 or email me at [aswader@athea.com](mailto:aswader@athea.com).

Thank You,

A handwritten signature in black ink, appearing to read 'ASwader', is written over a horizontal line.

**PRECAUTIONARY STATEMENTS  
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**WARNING:** Causes substantial but temporary eye injury. Harmful if absorbed through skin. Do not get in eyes or clothing. Avoid contact with skin. Wear long sleeved shirt, long pants, shoes and socks, protective eyewear (goggles, face shield, or safety glasses) and chemical resistant gloves (such as or made out of any waterproof material). Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse.

**FIRST AID**

**IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

**IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for further treatment advice.

**IF INHALED:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

**IF SWALLOWED:** Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For information on this pesticide (including health concerns, medical emergencies, or pesticide incidents), call the National Pesticide Information Center at 1-800-858-7378.

For information on product, usage, etc., call 1-800-743-6417.

**PHYSICAL OR CHEMICAL HAZARDS**

**FLAMMABLE.** Keep away from heat, sparks, and flames. Do not use in the vicinity of pilot lights. Do not use on latex paint, polished wood furniture, or other materials that could be damaged by alcohol.

**DESINFECTANTE DESODORANTE  
FEATURES, CLAIMS, AND USE**

**FOR USE ON:** Glass, porcelain, ceramic, metal, polyethylene, polypropylene, vinyl, polyester, ABS, Bakelite, rubber, enameled surfaces, and other hard, nonporous materials and surfaces not damaged by alcohol.

**• READY-TO-USE, DOUBLE-ACTION PRODUCT •**

Decontaminates surfaces two ways, leaving them thoroughly disinfected and deodorized.

**DUAL-DEODORIZING ACTION:** Fresh-scented to quickly suppress unpleasant odors from many sources as it destroys microorganisms that cause putrefactive odors.

**HOSPITAL-TYPE DISINFECTING ACTION:** Medical-level and broadspectrum antimicrobial activity destroys many organisms which threaten public health or create unpleasant odors and other undesirable effects. Reduces the hazard of cross-contamination from hard, inanimate surfaces in medical facilities.

**Virucidal:** Inactivates Human Immunodeficiency Virus Type 1 (HIV-1, a retrovirus that cause AIDS (Acquired Immune Deficiency

# C-SPRAY

## DISINFECTANT DEODORANT

KILLS HIV-1(AIDS VIRUS) AND HERPES SIMPLEX TYPES 1 & 2 VIRUSES ON PRECLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS.

A READY-TO-USE MULTIPURPOSE HOSPITAL USE AND BROAD-SPECTRUM DISINFECTANT • ANTIMICROBIAL • DEODORIZER FOR USE ON HARD, NONPOROUS, INANIMATE SURFACES IN/ON INDUSTRIAL, INSTITUTIONAL, COMMERCIAL, RESIDENTIAL, AND MEDICAL FACILITIES AND VEHICLES.

FOR USE IN MEAT AND POULTRY PLANTS.

VIRUCIDAL • TUBERCULOCIDAL  
FUNGICIDAL • BACTERICIDAL  
PSEUDOMONACIDAL • STAPHYLOCIDAL  
CONTROLS MOLD/MILDEW FUNGI

Date Reviewed: 4/25/10  
Reviewed By: K Swift

Syndrome)); Herpes Simplex Types 1 & 2, Coxsackie viruses A2 and B3; Adenovirus Type 5; Influenza A2/Hong Kong; and Vaccinia on hard, inanimate surfaces.

**Bactericidal:** Kills Escherichia coli; Pseudomonas aeruginosa; Salmonella choleraesuis; Salmonella schottmuelleri (paratyphoid B); Shigella dysenteriae; Staphylococcus aureus; and Streptococcus pyogenes.

**Tuberculocidal:** Mycobacterium tuberculosis (Tubercle bacilli) on surfaces that have been thoroughly cleaned prior to treatment. Effective in 10 minutes at 20°C(68°F).

**Fungicidal:** Kills Trichophyton mentagrophytes (athlete's foot fungi; formerly T. Interdigitale) in appropriate areas, such as shower room floors, locker room benches, and bath mats.

**Controls Mold/Mildew:** Completely inhibits growth of these fungi on cloth: Aspergillus niger and Penicillium variable(formerly P. glaucum).

**Sanitizes:** Reduces odor-causing microorganisms on nonporous surfaces.

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This product is not to be used as a terminal sterilant/high-level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to preclean or decontaminate critical or semi-critical medical devices prior to sterilization or high-level disinfection.

**GENERAL:** Thoroughly clean surface prior to application of this product. Do not get product on foods/drinks/feeds or surfaces that they may contact; protect during treatment by removing or covering them. Any contaminated food/drink/feed contact surfaces should be washed with a suitable cleaning product and rinsed with potable (drinking) water before using. Treat food/drink/feed processing areas only when the facility is not in operation.

**TO KILL HIV-1** (Human Immunodeficiency virus Type 1, AIDS virus) ON PRECLEANED SURFACES in health care or other settings with inanimate environmental surfaces/objects associated with the potential for transmission of HIV-1 and likely to be soiled with blood/body fluids, follow these ADDITIONAL SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATING AGAINST HIV-1 ON SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS: **PERSONAL PROTECTION** - Barrier protection items such as disposable latex gloves, gowns, masks, and eye coverings should be worn when handling items soiled with blood/body fluids. **CLEANING PROCEDURE** - Blood/body fluids must be thoroughly cleaned from surfaces/objects before application of this product. **CONTACT TIME** - Leave surface wet for 10 minutes. **DISPOSAL OF INFECTIOUS**

715

**MATERIALS** - Blood/body fluids and materials removed from or used to clean surfaces/objects should be autoclaved and disposed of according to federal, state, and local regulations for infectious waste disposal.

**TO DISINFECT, CONTROL MILDEW, AND DEODORIZE PRE-CLEANED SURFACES:** Hold spray opening about 6 to 8 inches (1/5 m) away from surface and spray until its thoroughly wetted. For proper disinfection, apply at approximately 20°C (68°F), then allow 10 minutes for it to act. For mildew control, repeat application when necessary.

**IMPORTANT NOTICE!  
RELABELING/REPACKAGING**

It is illegal to distribute or sell a relabeled/repackaged pesticide without a prior, written contract with the basic registrant.

**FEATURES, CLAIMS, AND USES  
PLEASANT**

**ELIMINATES ODORS BY ATTACKING THEM AT THEIR SOURCE.  
FOR HOSPITAL USE AND BROAD-SPECTRUM  
DISINFECTING/ANTIMICROBIAL ACTIVITY  
ON HARD, NONPOROUS, INANIMATE SURFACES.**

A ready-to-use, pleasant, hospital-type and broad-spectrum disinfectant that decontaminates and deodorizes surfaces after a 10 minute exposure time. Eliminates dilution errors, product contamination, and other problems common to products that require dilution and mixing.

**VRUCIDAL\*** Inactivates these agents: Human Immunodeficiency virus Type 1 (HIV-1; a retrovirus that causes "AIDS" (Acquired Immune Deficiency Syndrome); Herpes simplex Type 1 (a herpesvirus that causes cold sores); Herpes simplex Type 2 (a herpesvirus that causes "genital herpes"); Coxsackie viruses A2 and B3 (picornaviruses; human enteroviruses); Adenovirus Type 5 (an adenovirus); Influenza A2/Hong Kong (a myxovirus); and Vaccinia (a poxvirus) on hard, inanimate surfaces.

**SAFE TO USE ON:** Most glass, porcelain, ceramic, metal, painted enameled, plastic, rubber, and sealed leather, wood, concrete, and similar surfaces, including • Stainless steel • Aluminum • Iron & Steel • Chrome • Brass • Copper • Ceramic, Plastic & Quarry Tile • sealed Cement/Grouting • Cork • finished Woodwork • Leatherette • Polyethylene • Polypropylene • Polyurethane • Vinyl • Polyester • ABS • Bakelite • Acrylic • and other hard, non-porous materials and surfaces not damaged by alcohol.

**EXCELLENT FOR DECONTAMINATING:** Surfaces such as Toilet Seats • Urinals • Bathtubs • Shower Stalls • Bathroom Fixtures • Partitions • Walls, Baseboards, Floors, & Ceilings • Telephones • Bed Frames & Springs • Tiled Surfaces • Wash Basins & Sinks • Counter & Table Tops • Hoods • Exhaust Fans • Laminar Flow Cabinets & Hoods • Railings, Faucet Handles, Door Knobs & other Fixtures • Halls, Hallways, Stairs & Stairways • Elevators & Escalators • Light Switches

• Fixtures • Plastic Upholstery • Seats & Benches • Lockers • Counters • Wheelchairs & Power Carts • Laundry, Linen, Dressing, Clean-Up, & Equipment Carts • Laundry Chutes & Hampers • Trash Compactors • Diaper Pails • Portable Toilets & Potties • Garbage & Refuse Containers • Pet Quarters • Furniture • Chairs & Seating • Tables, Counters, & Desks • Cabinets, Closets & Lockers • Equipment & Machinery • Racks • Conveyors • Appliances • Medical Equipment & Furniture • many other similar public and residential surfaces which could harbor hazardous microorganisms.

**TWO-WAY SURFACE DEODORIZING ACTION:** Its fresh scent acts instantly and remains effective for long periods on unpleasant odors. Quickly counteracts "CHEMICAL" MALODORS such as garlic, onion, tobacco smoke, stale odors, musty smells, fish, gas, and urine; in kitchens, bathrooms, basements, and many other occasionally malodorous, unpleasant areas and situations. Kills many microorganisms that generate the "BIOLOGICAL" MALODORS associated with surgical dressings, ostomy pouches, malignant diseases, excised organs and tissue, fecal matter, burns, perspiration, garbage, and other decaying, putrefying organic matter.

**IN DENTAL FACILITIES**

This disinfectant/deodorizer helps decontaminate hard, nonporous surfaces on furniture, equipment, and other items in dental facilities, such as: patient's and operator's chairs, operator's light, working surfaces, bracket table, evacuator reservoir, tray racks and trays, x-ray control panel and button, viewers, waiting room furniture, bathroom fixtures, lab areas and equipment, railings and door knobs, and on other public surfaces which could harbor dangerous microorganisms. Use this product to disinfect and deodorize these and many other surfaces in dental areas.

**OTHER CLAIMS**

It kills the microorganisms listed, and helps to control odors caused by many biological putrefactive processes in: hospitals, doctor's offices, dentist's offices, nursing homes, ambulances, veterinary offices, animal hospitals, and other medical facilities, including those from surgical dressings, post-colostomy and post-ileostomy dressings and bags, ostomy pouches, malignant diseases, fecal matters, burns, perspiration, and other decaying tissue and organic matter. Also helps to control microorganisms and putrefactive odors in: food storage, processing, packaging, handling, and serving establishments & equipment; industrial and institutional facilities; plants and offices; zoos; pet boarding facilities; household pet quarters; homes; other commercial and residential facilities.

It is also a non-specific odor suppressant for space odor conditioning. Molecular deodorant attacks malodors at the source. Suppresses and eliminates odors by chemically neutralizing odor-producing materials. Does not cause anosmia.

**CAN BE USED IN/ON SITES SUCH AS THE FOLLOWING** (only under conditions where it will not contact foods/drinks/feeds, and where humans and animals would have only limited or incidental contact).

**Processed or Manufactured Products-**

Processed or manufactured nonfood plant and animal products(indoor): Textiles, fabrics, and fibers; fur and hair products; and leather products.

Processing and handling equipment and machinery - other than food processing (indoor).

Pets and Domestic Animals - their man-made premises.

Fur and wool-bearing animals (indoor): Goats, sheep, minks, chinchillas, rabbits, foxes, and nutrais.

Animals for labor, display, riding, racing, lab uses, etc. (indoor): Dogs, horses, donkeys, and mules; guinea pigs; mice; rats; gerbils; hamsters; monkeys; cats; chickens and birds; wild rodents; zoo ruminants; zoo ungulates; zoo canines; zoo felines; zoo primates; zoo reptiles; zoo amphibians; zoo birds; zoo - others; aquarium fish.

Animals for pets, including their cages, bedding, nests, etc. (indoor): Dogs; cats; birds; rodents; lagomorphs; fish; amphibians; reptiles; primates; and other vertebrates.

**Household -**

Non-food areas and sites (indoor): Closets and storage areas; basements and cellars; bedrooms; attics; recreation rooms; living rooms; baseboards, window sills, etc.; plumbing fixtures; and sickrooms.

Household contents and space (indoor): Beds; rugs; bookcases; furs; fabrics; and blankets; play pens; and sickroom utensils.

**Commercial and Industrial Uses -**

Transportation Facilities (indoor): Buses, trucks and trailers; containerized units; railroad cars; aircraft; ships/barges; autos and taxis; recreational vehicles; and shipping containers.

Food and feed processing plants (indoor): Inedible and nonprocessing areas of - Bakeries; bottlers; canneries; dairies; creameries, and milk processing plants; feed mills and feed stores; fresh fruit packing and processing; meat processing; poultry processing; wineries and wine cellars; flour mills, machinery, warehouses, bins, and elevators; egg processing; candy and confectionery plants; sugar processing, cane mills, etc.; cider mills; dry food products plants; tobacco processing; beverage processing; nut processing; cereal processing; seafood processing; vegetable oil processing; spice mills; vinegar processing; farinaceous processing (noodles, etc.); mushroom processing; dried fruit processing; pickle processing; ice plants; chocolate processing; and fruit juice processing.

Eating establishments - all (indoor): Non-food surfaces in/on - food handling areas; food serving and eating establishment nonfood areas; food storage and equipment (coolers, refrigerators, etc.)

Food marketing, storage, and distribution (indoor): food contact surfaces in/on food dispensing and serving equipment; food stores, markets, and stands; meat and fish markets; food catering facilities; and food market and storage, and distribution equipment and utensils.

Hospitals and related institutions and facilities (indoor): Critical premises (for example, burn wards), hospital patient premises

(wards, emergency room, etc.); noncritical premises (labs, lounges, lobbies, storage); critical items (hypodermic needles, instruments, catheters, etc.); and noncritical items (such as bedpans, carpets, furniture, etc.).

Janitorial equipment (indoor).

Barber and beauty shop instruments and equipment (indoor).

Morgues, mortuaries, and funeral homes (indoor): Premises (embalming rooms, etc.); equipment (tables, etc.); Instruments; and burial vaults and mausoleum.

Commercial, Institutional, and industrial maintenance buildings and structures (indoor): Locker rooms and equipment; gyms, bowling alleys, and equipment; telephones and booths; shower rooms, mats, and equipment; cotton mill premises and equipment; auditoriums and stadiums; factories; rendering plants; loading docks and ramps; school buildings and equipment; and laundries.

#### Domestic and Human Use -

Fiber product protection (mildew-proofing) (indoor): Clothing; upholstery; ornamental fabrics (draperies, tapestries); ropes; and sail cloth.

Human articles and materials (indoor): Bedroom blankets; mattresses; clothing; face gear (such as goggles, face masks, etc.); headgear (such as helmets, headphones, etc.); mouthpieces for musical instruments, etc; brick, asbestos, etc.; wood surfaces; leather surfaces; fabric surfaces; and paper/paperboard surfaces.

Specialty uses (indoor): Non-food-contacting surfaces/materials in/on museum collections (presenting animal and plant specimens); military uses (not specified); quarantine uses (not specified); DHHS uses (not specified); underground cables; cuspidors, spittoons; diapers; laundry equipment (cans, chutes, tables, etc.); dust control products and equipment (mops, etc.); dry cleaning; carpets; and upholstery.

Bathrooms, toilet bowls and related sites (indoor): Bathroom premises; toilet bowls and urinals; toilet tanks; portable and chemical toilets; vehicular holding tanks; and diaper pails.

Refuse and solid waste (indoor): Refuse and solid waste containers; refuse and solid waste transportation handling equipment; garbage dumps; household trash compactors; garbage disposal units and food disposals and incinerators.

#### Miscellaneous Indoor Uses -

Surface treatments (indoor): Non-food-contact surfaces including hard nonporous surfaces (painted, tile, plastic, metal, glass, etc.); hard porous surfaces (cement, plaster); camping equipment and gear; and grooming instruments (brushes, clippers, razors, etc.).

Laundry, cleaning, and dry cleaning (indoor).

**NOTE:** Below are special directions for use on a dental pouch; not for use on normal customer labels.

#### FOR DISINFECTING DENTAL HANDPIECES

**NOTE:** The disposal dental handpiece sleeve is not a substitute for sterilization. It is recommended only for disinfecting handpieces which cannot be sterilized by steam autoclave, unsaturated chemical vapor, dry heat, or ethylene oxide, due to physical limitations, incompatibility, or residue.

#### FOLLOW THESE STEPS!

1. Always wear gloves.
2. Flush handpiece thoroughly for 20 to 30 seconds. Remove the bur.
3. Clean handpiece thoroughly to remove saliva, blood, and other organic soil. Scrub handpiece with small brush and detergent under running water.
4. Blot handpiece dry with a clean paper towel. Water droplets clinging to the handpiece will dilute the disinfectant.
5. Grasp tabs at upper right corner of pouch and open to the line "open to here". This allows sufficient room to insert either a high or low speed handpiece.
6. Insert handpiece completely into sleeve between the disinfectant-soaked sponges.
7. Vigorously massage handpiece inside sleeve from top to bottom. Massaging action distributes disinfectant over entire handpiece surface and provides a beneficial scrubbing effect.
8. Leave handpiece inside sleeve for at least 10 minutes at approximately 20°C (68°F). Handpiece with sleeve may be suspended by tubing with open end of sleeve upward.
9. After 10 minute disinfection cycle, rinse handpiece in water, or wipe with an alcohol-saturated sponge to remove residual disinfectant.
10. Blot dry with a paper towel.
11. Lubricate handpiece according to manufacturer's directions.
12. Dispose of the used sleeve in the trash.

#### STORAGE AND DISPOSAL

**GENERAL:** Do not contaminate other materials (including water/food/feed) during transport, use, storage, and disposal. If damaged, leaking, or spilled, soak up and wrap any waste, then dispose of as below.

**STORAGE:** Keep unused sleeves in original carton in a cool, dry, locked area inaccessible to children and away from sources of ignition, heat, degradation, and contamination (including flames, sparks, hot surfaces, sunlight, and other chemicals).

**DISPOSAL OF SLEEVE:** Do not reuse sleeve; after use, discard in trash.

#### STORAGE AND DISPOSAL

**GENERAL:** Do not contaminate other materials including water/food/feed during transport, use, storage, and disposal. If damaged, leaking, or spilled, soak up and wrap any waste, then dispose of as below.

**Pesticide Storage:** Store in a dry place no lower in temperature than 50°F or higher than 120°F.

**Pesticide Disposal:** Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

**Container Handling:** Nonrefillable container. Do not reuse or refill container. Offer for recycling, if available. Clean container promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container 1/4 full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat procedure two more times. Container Disposal For Greater than 5 gallons

**Container Handling:** Nonrefillable container. Do not reuse or refill container. Clean container promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank. Fill container 1/4 full with water. Replace and tighten closures. Tip container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Empty the rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Repeat this procedure two more times.
