US ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (75-767) WASHINGTON, DC 20460 NOTICE OF PESTICIDE: <input checked="" type="checkbox"/> REGISTRATION <input type="checkbox"/> REREGISTRATION (Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended)	EPA REGISTRATION NO. 10098-8	DATE OF ISSUANCE NOV 18 1988
	TERM OF ISSUANCE	
	NAME OF PESTICIDE PRODUCT Ler-(Chlor	

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Lerre Soap and Chemicals Company, Inc.
 1727 Carpenter Street
 Philadelphia, PA 19146

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

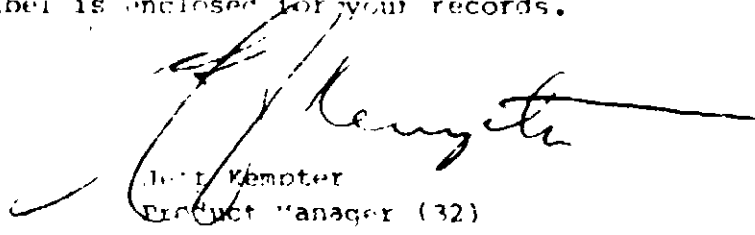

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) provided that you:

1. Submit/cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Add the phrase "EPA Registration No. 10098-8" to your label before you release the product for shipment.
3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

DIRECTIONS FOR

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH THE LABEL DIRECTIONS.

LER-CHLOR
SODIUM HYPOCHLORITE SOLUTION

ACTIVE INGREDIENT: SODIUM HYPOCHLORITE 10%
INERT INGREDIENTS 90%
DISINFECTANT BACTERICIDE DEODORANT

FOR
FOOD PROCESSING PLANTS, DAIRY PLANTS,
FARMS, HOTELS, RESTAURANTS, TAVERNS
AND SWIMMING POOLS.

KEEP OUT OF REACH OF CHILDREN
DANGER

FIRST AID: If on skin, wash with plenty of soap and water. If in eyes, flush with water for at least 15 minutes. Get medical attention. If swallowed, drink large quantities of milk, or gelatin solution, or if these are not available, drink large quantities of water. Do not give vinegar or other acids. Do not induce vomiting. Get prompt medical attention.
See additional precautions on side panel.

DISTRIBUTED BY
LERRO'S SOAPS & CHEMICALS INC.
PHILA., PA. 19146

EPA REG. NO. 100-100000-0000
EPA EST. NO. 10000-PA-1

5 Gallons

SWIMMING POOL CHLORINATION

For a new pool or for spring start-up superchlorinate with one (1) pint of this solution for each 3000 gallons of water. This dosage is equivalent to 5 ppm available chlorine.

For Pool Maintenance:

- A) Adjust pool water pH to 7.0-7.2 range and maintain.
- B) Add manually or by a feeder device this sodium hypochlorite solution to maintain a free available chlorine residual of 0.8 to 1.0 ppm. One fourth pint (4 fl. oz.) of this solution for each 4000 gallons of water will provide 1.0 ppm available chlorine. Frequent additions to maintain 0.8 to 1.0 ppm available chlorine will decrease the number of swimmers. Use test kit to make certain the pH and chlorine levels are correct.

DISINFECTION OF POTABLE WATER

Dilute this sodium hypochlorite solution in the ratio of one part sodium hypochlorite solution to ten parts water. Mix sodium hypochlorite solution with water thoroughly with hypochlorinator (metering pump). Maintain a free available chlorine residual of 0.6 ppm throughout the distribution system, as determined by test kit. Bacteriological sampling must be conducted at a frequency no less than that required by the National Interim Primary Drinking Water Regulations. Check water frequently.

SANITIZING FOOD PROCESSING EQUIPMENT

Clean equipment in the normal manner. Just before using, rinse all surfaces with water. Apply this sodium hypochlorite solution containing 200 ppm available chlorine. Maintain contact with surfaces for 2 minutes. Do not rinse with water after treatment with Sodium Hypochlorite solution. Addition of one fluid oz. (2 tablespoons) of this Sodium Hypochlorite solution to one gallon of water will provide approximately 200 ppm available chlorine by weight. Rinse non-porous surfaces such as dishes, glasses, and utensils, clean with water after treatment with chlorine solution.

DISINFECTANT

For disinfection of hard, inanimate surfaces such as floors, walls, and ceilings. Apply this sodium hypochlorite solution to 5 gallons water for 600 ppm available chlorine. Thoroughly wet surfaces with solution for at least 10 minutes. Do not rinse after treatment.

*Contact your local Health Department for further details.

PRECAUTIONARY STATEMENT
HAZARDOUS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Corrosive, may cause severe skin irritation or chemical burns to broken skin. Causes eye damage. May be fatal if swallowed. Avoid breathing vapors. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling this product. Wash hands after handling. Vacate poorly ventilated areas as soon as possible. Do not return until odors have dissipated.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Keep out of lakes, streams or ponds. Treated effluent cannot be discharged into lakes, streams, ponds or public waters unless a discharge permit is obtained. For guidance, contact the regional office of the Environmental Protection Agency.

PHYSICAL AND CHEMICAL HAZARDS: STRONG OXIDIZING AGENTS: Mix only with water according to label directions. Mixing this product with gross filth such as feces, urine, etc., or with ammonia, acids, detergents or other chemicals will release hazardous gases irritating to the eyes, lungs and mucuous membranes.

Sodium Hypochlorite Solution degrades with age. If used later than ten (10) days after packaging, use a chlorine test kit to insure that the solution will provide the amount of available chlorine desired.

STORAGE AND DISPOSAL: Keep this product in a tightly closed container, when not in use. Store in cool, dry, well ventilated area away from heat or open flames. In case of fire, isolate container (if possible) and flood area with large amounts of water. Solve all material before discarding this container, but place in wash collection. Do not contaminate food or feed by storage, disposal, or cleaning of equipment.
