REGISTRATION DIVISION (75-767)
WASHINGTON, DC 20460

EPA REGISTRATION NO.

10098-8

DATE OF ISSUANCE

JUL 13 1995

TERM OF ISSUANCE

NOTICE OF PESTICIDE: REGISTRATION
 REREGISTRATION

(Under the Federal Insecticide, Fungicide,
and Rodenticide Act, as amended)

NAME OF PESTICIDE PRODUCT

Ler-Chlor

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

PM-32

Reg # 10098-8

193

Lerro Products, Inc.
1727 Carpenter Street
Philadelphia, PA 19146

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

Based on your response to the Reregistration Eligibility Document, EPA has reregistered the above named product subject to the comments recorded in the succeeding paragraph. This action is taken under the authority of section 4(g)(2)(C) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product.

Make the following labeling changes before you release the product for shipment:

1. Change EPA Registration No. 10098-4 to 10098-8.

A stamped copy of the product label is enclosed for your records. Submit one copy of the final printed label before releasing the product in channels of trade with the revised labeling.

DIRECTIONS FOR USE:
IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT
IN A MANNER INCONSISTENT WITH ITS LABELING

SWIMMING POOL CHLORINATION

For a new pool or for spring start-up super chlorinate with one (1) pint (16 fl. ozs.) of sodium hypochlorite solution for each 3000 gallons of water. This dosage is equivalent to 5 ppm available chlorine by weight.

For Pool Maintenance:

A) Adjust pool water pH to 7.2-7.8 range and maintain

B) Add manually or by a feeder device this sodium hypochlorite solution at a rate to maintain an available chlorine residual of 0.8 to 1.0 ppm. One fourth pint (4 fl. ozs.) of this sodium hypochlorite solution for each 4000 gallons of water will provide 1.0 ppm available chlorine by weight. Frequency of additions to maintain 0.8 to 1.0 ppm available chlorine will depend on temperature and number of swimmers. Use test kit to make certain the pH and chlorine residual are in the proper range.

DISINFECTION OF POTABLE WATER

Dilute this sodium hypochlorite solution in the ratio of one part sodium hypochlorite solution to 11 parts softened water. Mix sodium hypochlorite solution with water thoroughly and begin feeding of solution with hypochlorinator (metering pump). Maintain a free available chlorine residual of at least 0.2 ppm and no more than 0.8 ppm throughout the distribution system as determined by a DPD chlorine test kit. Bacteriological sampling must be conducted at a frequency no less than that prescribed by the National Interim Primary Drinking Water Regulations. *Check water frequently with a DPD chlorine test kit.

SANITIZING FOOD PROCESSING OR DAIRY EQUIPMENT

Clean equipment in the normal manner. Just before using rinse all surfaces with this Sodium Hypochlorite Solution containing 200 ppm available Chlorine. Maintain contact with the disinfectant for a minimum of 2 minutes. Do not rinse with water after treatment with Sodium Hypochlorite Solution. Do not soak overnight. Addition of one fluid oz. (2 tablespoons) of this Sodium Hypochlorite Solution per 5 gallons of water will provide approximately 200 ppm available chlorine by weight. When used as sanitizing for non-porous surfaces such as dishes, glasses and utensils clean prior to applying a 200 ppm available chlorine solution.

DISINFECTANT

For disinfection of hard inanimate surfaces such as floors, walls and woodwork add 3 oz. of product to 5 gallons water for 500 ppm available chlorine. Thoroughly wet surfaces with the recommended solution for at least 10 minutes. Do not rinse after treatment.

EPA REG. NO. 10098-8

EPA EST. NO. 10098-PA-1

1 GALLON

ACCEPTED
with COMMENTS
in EPA Letter Dated:

JUL 13 1995

Under the Federal Insecticide,
Fungicide, and Rodenticide Act as
amended, for the pesticide
registered under EPA Reg. No. 10098-8

PRECAUTIONARY STATEMENTS HAZARDOUS TO HUMANS AND DOMESTIC ANIMALS

Corrosive. May cause severe skin irritation and damage. May be fatal if swallowed. Avoid contact with clothing. Wear goggles or face shield and gloves when handling. Vacate poorly ventilated areas if odors have developed.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and aquatic life. Do not apply to lakes, streams, rivers, or other waters unless this product is specifically approved by the NPDES permit. Do not discharge into surface waters without previously notifying the appropriate authority. For guidance contact your State Water Pollution Control Agency.

PHYSICAL AND CHEMICAL HAZARDS

STRONG OXIDIZING AGENT:
Mix only with water according to directions. Do not mix with acids, other chemicals will release hazardous gases. Bleach degrades rapidly. After packaging, use a chlorine test kit to determine the amount of available chlorine de-

STORAGE AND DISPOSAL

Store this product in a cool dry area to avoid deterioration. In case of spill, absorb with inert material and dispose of in a sanitary sewer. Do not reuse or collect. Do not contaminate food or feed. Do not contaminate food or feed of equipment.
