**NOTE:** Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an endorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with the provisions of Section 3(c)(7)(A) of the Act, since you have agreed that you will submit and/or cite all data required for registration/reregistration of your product under FIFRA Section 3(c)(7) when the Agency requires all registrants of similar products to submit such data.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with Section 6(e) of the Act.

Jen E. Ellington
Product Manager (IIC)
Insecticide-Fungicide Branch
Registration Division (22-72)

**IF EYES:** Rinse eyes for at least 15 minutes with plenty of water and call a physician immediately.

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

HAZARDOUS IF INHALED OR SWALLOWED. Avoid breathing dust. Do not allow contact with the eyes or mouth. Avoid contact with wet or dry dust. Store in original containers.

**DIRECTIONS FOR USE**

This product is toxic to fish, birds, and bees. Keep out of reach of children and pets. Wash hands after handling. Do not apply to plants when in bloom. Store in a cool, dry place.

**ENVIRONMENTAL HAZARDS**

This product is toxic to fish, birds, and bees. Keep out of reach of children and pets. Wash hands after handling. Do not apply to plants when in bloom. Store in a cool, dry place.

**STORAGE AND DISPOSAL**

PROHIBITION: Do not contaminate water, food, or feed by storage or disposal. If disposed of in accordance with federal, state, and local regulations, no further precautions are necessary.

**Pesticide Disposal:** Do not apply to plants when in bloom. Store in a cool, dry place.

**CONTAINER DISPOSAL:** Do not dispose of this product in the trash. Follow label instructions for proper disposal.

**EPA Act. No. 10107-NB-1**

Manufactured for:
CORNBELT CHEMICAL CO.
P.O. Box 410, McCook, NE 69001

**EPA Reg. No. 10107-43**

**GMB (the preferred interval)**: Core ammonium, Stink bugs - 20 to 40 lbs. per acre.

**PARSLEY (the preferred interval)**: Flea beetles, Leafhoppers - 10 to 20 lbs. per acre. Ammonium, Cabbage loopers, Stink bugs - 5 to 10 lbs. per acre. Where the cabbage loopers is the primary pest, use an alternative pesticide specifically recommended by the control of small cabbage loopers after sizable parts start to form, apply 5 to 7 day intervals.

**PAPERS (the preferred interval)**: Flea beetles, Leafhoppers - 10 to 20 lbs. per acre. Ammonium, Stink bugs - 5 to 10 lbs. per acre.

**PARSLEY AND RANGE (the preferred interval)**: Refer to Grower's Guide for details. Where the cabbage loopers is the primary pest, use an alternative pesticide specifically recommended by the control of small cabbage loopers after sizable parts start to form, apply 5 to 7 day intervals.

**PARSLEY (the preferred interval)**: Flea beetles, Leafhoppers - 10 to 20 lbs. per acre. Ammonium, Stink bugs - 5 to 10 lbs. per acre.

**PEACHES (the preferred interval)**: Callyfornia peaches, Oriental fruit moth, codling moth, plum curculio. Permethrin, nicotine. Dieldrin, malathion. Where the codling moth is the primary pest, use an alternative pesticide specifically recommended by the control of small codling moth after sizable parts start to form, apply 5 to 7 day intervals.

**PARSLEY (the preferred interval)**: Flea beetles, Leafhoppers - 10 to 20 lbs. per acre. Ammonium, Stink bugs - 5 to 10 lbs. per acre.

**PARSLEY AND RANGE (the preferred interval)**: Refer to Grower's Guide for details. Where the cabbage loopers is the primary pest, use an alternative pesticide specifically recommended by the control of small cabbage loopers after sizable parts start to form, apply 5 to 7 day intervals.

**Peanuts (the preferred interval)**: Beetle bugs, Colorado potato beetle, Flea beetles, Leafhoppers - 10 to 20 lbs. per acre. Ammonium, Cabbage loopers, Stink bugs - 5 to 10 lbs. per acre. Where the codling moth is the primary pest, use an alternative pesticide specifically recommended by the control of small codling moth after sizable parts start to form, apply 5 to 7 day intervals.

**PAPERS (the preferred interval)**: Flea beetles, Leafhoppers - 10 to 20 lbs. per acre. Ammonium, Cabbage loopers, Stink bugs - 5 to 10 lbs. per acre. Where the codling moth is the primary pest, use an alternative pesticide specifically recommended by the control of small codling moth after sizable parts start to form, apply 5 to 7 day intervals.

**PARSLEY (the preferred interval)**: Flea beetles, Leafhoppers - 10 to 20 lbs. per acre. Ammonium, Stink bugs - 5 to 10 lbs. per acre.

Where the codling moth is the primary pest, use an alternative pesticide specifically recommended by the control of small codling moth after sizable parts start to form, apply 5 to 7 day intervals.
**SQUASH** (20 day preharvest) - Pickles, Melocytes. 10 lbs. per acre. Cucumber beetles, flea beetles, leafhoppers, Spanish fly. 30 lbs. per acre.

**STRAWBERRIES** (4 day preharvest interval) - Raspberry and Strawberry weevil. Raspberry weevil. 20 to 40 lbs. per acre.

**SUGAR BEETS** (10 day preharvest interval) - Cabbage root maggot. 10 to 20 lbs. per acre. Use 10 to 20 lbs. in rows of young plants and for controlling armyworms.

**SWISS CHARD** (1st quarted interval) - Flea beetles, Harlequin bug. 20 to 30 lbs. per acre. Armyworms. Cabbage root maggot. Use 20 to 30 lbs. per acre. When the cabbage root maggot is the principal problem, use an alternative pesticide specifically recommended for it. For control of small cabbage loops, lower middle parts start to form, apply at 4 to 7 day intervals.

**TOMATO** (Field) - Tobacco flea beetle. 1 to 3 lbs. per 100 square yards. Apply just before transplanting.

**TOMATO** (Greenhouse) - Tobacco flea beetle. 10 to 20 lbs. per acre. European corn borer. Fall armyworms. Lace bugs. Aphids. Spanish fly. 30 to 40 lbs. per acre.

**TOMATO** (Greenhouse) - Colorado potato beetle. Flea beetles, leafhoppers. 10 to 20 lbs. per acre. Japanese beetle. 15 to 20 lbs. per acre. Use full coverage. Aphids. Greenhouse whitefly. 30 to 40 lbs. per acre.

**TRNIPS** (10 day preharvest interval on rows and 14 day on tape) - Flea beetle. Harlequin bug. 10 to 20 lbs. per acre. Armyworms. Cabbage root maggot. 10 to 20 lbs. per acre. When the cabbage root maggot is the principal problem, use an alternative pesticide specifically recommended for it. For control of small cabbage loops, lower middle parts start to form, apply at 4 to 7 day intervals.

**POULTRY** (Broilers, Geese, Geese, Guinea, Pheasants, Pigeons, Turkey) - Chickens, mice, frogs, birds. Northern foul nose. 1 lb. per 100 birds. Integrate applications. Apply by hand or by hand sprayer. Direct one at roosts and feed areas. Also over roost and feed for eight to ten weeks. Repel 2 to 4 weeks. This is a supplement to premises and other treatments for chicken nuisances.

**POULTRY HOUSES** - Red bats, mouse, frogs. Use Northern foul nose. 2 to 4 lbs. per 1000 square feet. Apply to floors, litter, and adjacent areas with a sweep, hand sprayer, or power sprayer. Force dust into cracks and crevices.

**POULTRY HOUSES** - Kennels, sleeping quarters. 2 to 5 lbs. per 1000 square feet for adult or 5 to 10 lbs. per 1000 square feet for mice. Apply liberally by garden-type dusters. Force dust into cracks and crevices. Repel 2 to 4 weeks. Do not expose kittens or puppies less than 4 weeks of age in treated areas.

**ORNAMENTS**

**LAWNS AND TURFS** - Aphis, Chinch bugs, Needle bugs, Cutworms, Earwigs, Earlbugs, Fleas, Leeches, Millepedes, Millipedes, Termites. 20 lbs. per 5000 square feet. For best results, mow lawn, remove clippings and apply immediately after rain or watering. Water following treatment. Keep children and pets off lawns until material is washed in and grass is dry.

**HERBACEOUS PLANTS AND BULBS** - Annual plants. 70 per 5000 square feet. For best results, mix soil, remove clippings and apply immediately after rain or watering. Water following treatment. Keep children and pets off lawns until material is washed in and grass is dry.

**WOODY SHRUBS, TREES AND VINES** - 70 per 5000 square feet. For best results, mix soil, remove clippings and apply immediately after rain or watering. Water following treatment. Keep children and pets off lawns until material is washed in and grass is dry.

**NONAGRICULTURAL LANDS, PASTURES, RANGELAND** - Mosquitoes. 5 to 10 lbs. per 5000 square feet. For best results, mix soil, remove clippings and apply immediately after rain or watering. Water following treatment. Keep children and pets off lawns until material is washed in and grass is dry.

**NURSE AREAS** - House flies. Mosquitoes. Sand flies. 6 lbs. per acre. Apply with power powder in larger handled applicators.

**DOMESTIC DWELLINGS** - Earwigs. 10 to 15 lbs. per 5000 square feet. Apply to soil, surface cloth, and debris around moist shady places. Fleas. 5 to 10 lbs. per 5000 square feet. Apply directly to pets, yards, lawns, and under buildings around the home. Force the dust into cracks and crevices. Repel 2 to 4 weeks. Millepedes. 10 to 15 lbs. per 5000 square feet. Apply to soil, surface cloth, and debris around moist shady places. Mummichogs. 5 to 10 lbs. per 5000 square feet. Apply to lawns, embankments, and other vegetation around the home. Repel as needed. Termites. 2 to 3 lbs. per 5000 square feet. Apply directly to soil around pets, yards, lawns, and under buildings around the home. Repel as needed. Termites. 2 to 3 lbs. per 5000 square feet. Apply directly to soil around pets, yards, lawns, and under buildings around the home. Repel as needed. Termites. 2 to 3 lbs. per 5000 square feet. Apply directly to soil around pets, yards, lawns, and under buildings around the home. Repel as needed.

**URBAN AND RURAL OUTDOOR AREAS [PUBLIC HEALTH]** - Plague reservoir host animals. For use only by or under the supervision of State or Federal public health or wildlife officers. For use by hand or power applicators. Fleas, 4 oz. per 1000 square feet. Apply directly to soil around pets, yards, lawns, and under buildings around the home. Repel as needed.

**TO AVOID FUSIBLE INJURY TO TENDER FOLIAGE, DO NOT APPLY WHEN FOLIAGE IS WET OR WHEN HUMIDITY IS EXCESSIVE OR HUMIDITY IS EXPECTED DURING THE NEXT TWO DAYS.**

**NON WARRANTY**

Sellers warrant that the product conforms to the chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither the warranty nor any other warranty of merchantability or fitness for a particular purpose, expressed or implied, extends to the use of this product contrary to label instructions, under abnormal conditions, or under conditions beyond the control of the seller. The seller will not be held responsible for any failure or loss of crops on premises treated with this product, nor will the seller be responsible for any loss or injury to personal property or animals that may result from the use of this product contrary to label instructions. In the event of dissatisfaction with the performance of this product, return the bottle to the place of purchase for replacement, but no refunds will be made.
