

Precautionary Statements

Hazards To Humans & Domestic Animals

CAUTION

May cause irritation of eyes, nose, throat and skin. Avoid contact with skin, eyes or clothing. Wash thoroughly after handling.

ENVIRONMENTAL HAZARD

Do not apply directly to any body of water. Do not contaminate water by cleaning of equipment or disposal of waste.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

PROHIBITIONS

Do not contaminate water, food, or feed by storage, disposal or cleaning of equipment. Open dumping is prohibited. Avoid contamination of food or food-stuff.

Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL

Completely empty bag by shaking and tapping sides and bottom to loosen clinging particles. Then dispose of bags in a sanitary landfill or by incineration if allowed by state and local authorities.

GENERAL INSTRUCTIONS

TWO PLUS TWO controls certain perennial grasses and annual weeds such as barnyardgrass (watergrass), crabgrass, foxtail, lambsquarters, natalgrass (red top), nightshade (annual), pigweed, purslane, ragweed, sandbur (sandspur), sowthistle (annual), and spanishneedles. Effects on perennial weeds are slow to appear, usually progressing over a period of several months.

Moisture is necessary to activate the herbicide. Best results are obtained if treatment is made to moist soil, and moisture is supplied by rainfall or sprinkler irrigation within two weeks after application. The degree of control and duration of effect will vary with the amount applied, soil texture, rainfall, and other conditions.

TWO PLUS TWO

BROMACIL AND DIURON

GRANULAR WEED KILLER

ACTIVE INGREDIENTS:

Bromacil (5-bromo-3-sec-butyl-6-methyluracil)	2%
Diuron [3-(3,4-dichlorophenyl)-1-dimethylurea]	2%

INERT INGREDIENTS

Total 96%
100%

Keep Out Of Reach of Children

CAUTION

Avoid Breathing Dust

In case of contact, wash skin with soap and water for eyes, flush with water for 15 minutes and get medical attention.

DIRECTIONS, CONT.
NON-CROPPED CONTROL

TWO PLUS TWO is a non-selective herbicide for controlling a wide range of annual and perennial weeds and grasses. It is recommended only for non-cropland areas such as railroad rights-of-way and industrial areas. 200 to 400 pound applications of TWO PLUS TWO per acre usually result in a non-productive condition of the soil for a period of a year or more. The duration of non-productivity is dependent upon rainfall, soil type and other conditions.

TWO PLUS TWO should be applied as furnished with a seed spreader, a fertilizer spreader, a shaker type applicator, or with any equipment which will distribute the chemical uniformly over the area to be treated. Application equipment is available from Cornbelt Chemical Co. For the control of annual and most perennial weeds and grasses, apply TWO PLUS TWO at the rate of 200 to 400 pounds per acre. On smaller plots, 2.5 to 1.0 pounds per 100 square feet. Repeat spot treatment may be required when deep rooted perennial weeds are present. To obtain the best result, TWO PLUS TWO should be applied to the ground where it will be absorbed by the roots. Applications made early in the season have been found to give results superior to applications at a later date. TWO PLUS TWO may, however, be applied at any time of the year except when the ground is frozen. Maximum effectiveness in arid regions is obtained when application is made just prior to the rainy season. Users should consult state agricultural experimental stations or extension service weed specialist for recommendations as to use in their particular area or write to Cornbelt Chemical Co.

IMPORTANT: Do not apply on or near valuable woody or herbaceous plants or on areas where their roots may extend because of possible injury to such plants. Thoroughly clean spreading equipment with a suitable chemical cleaner before using for other purposes (or do not use same spreading equipment for other purposes). Dispose of rinsate according to "Pesticide Disposal" instructions found under "Storage and Disposal" heading. Do not use on croplands or any land to be used for subsequent cropping. Keep animals off treated areas.

NOTICE OF WARRANTY

Cornbelt warrants that this product conforms to the chemical description on the label thereof and is reasonably fit for the purposes stated on such label only when used in accordance with the directions under normal use conditions. It is impossible to eliminate all risks inherently associated with the use of this product. Crop injury, ineffectiveness, or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or the manner of use or application, all of which are beyond the control of Cornbelt. In no case shall Cornbelt be liable for consequential, special or indirect damages resulting from the use or handling of this product. All such risks shall be assumed by the buyer. **CORNBELT MAKES NO WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE NOR ANY OTHER EXPRESS OR IMPLIED WARRANTY EXCEPT AS STATED ABOVE.**
