## POUNDS

- FOR CLEANING SMOKEHOUSES.
- FOR PAN AND MOLD WASHING BY CIRCULATION.
- INHIBITS RUSTING.
- FAST RINSING.
- STRIPS BURNT-ON CARBON, SMOKE, PROTEIN AND GREASE ALMOST INSTANTLY.
- FOR EQUIPMENT, UTENSILS, FLOORS, AND WALLS.

### DIRECTIONS

**FOR CLEANING SMOKEHOUSES WITH FOAM:** Use 4 to 6 ounces per gallon (12 to 18 pounds per 50 gallons of water) with 1 to 2 quarts of LIQUIKs 1 or 2 per 50 gallons. Fill drum ½ full of cold water before adding the CIRTEC SP. Dissolve, then fill drum with hot water and when nearly full add the LIQUIK. Blend before using either with a C.I.P. or portable foamer. Use rubber gloves and protective goggles and clothing. The LIQUIK keeps the caustic from flying and protects the operator. After cleaning, rinse with potable water.

**FOR CLEANING MOLDS AND PANS BY CIRCULATION:** Use 4 to 6 ounces per gallon (12 to 18 pounds per 50 gallons of water). Fill tank ½ full of cold water before adding CIRTEC SP. Dissolve, then fill tank with hot water and apply steam to bring temperature to 180° – 200°F. Immerse molds and pans until clean. Rinse with potable water.

If more soap or suds are desired with improved rinsability, add 1 to 2 cups of LIQUIK 1 or 2 per 50 gallons.
