## GENERAL PURPOSE CLEANSER

FOR USE ON EQUIPMENT, WALLS, CEILINGS  
AND FLOORS WITH FOAM.

**FAST CLEANING — QUICK RINSING.**

**IDEAL FOR CLEANING HOOKS AND  
TROLLEYS BY CONTINUOUS OR BATCH  
METHODS.**

**SANITIZES AS IT CLEANS.**

## DIRECTIONS

FOR GENERAL CLEANING WITH FOAM

— Use 4 to 6 pounds META TEC 2C per 50 gallons of water. Fill drum  $\frac{1}{3}$  full of cold water. Add META TEC 2C and dissolve. Fill drum with hot water. When nearly full add 1 to 2 quarts of LIQUIK 2 NU BLU and blend until uniform. The LIQUIK keeps the caustic from flying thereby helping protect the operator. Apply to dirty areas after "roughing down" to remove meat scraps. Rinse thoroughly with potable water after cleaning.

## FOR DIPPING TROLLEYS

— Use 10-12 ounces META TEC 2C per gallon of water. Maintain proper concentration with a BIRKO TEST KIT. Allow trolleys to remain in solution until grease, fat and rust are gone. Rinse with potable water.

Authorized for Use Under U.S.D.A. Animal, Plant, Health Inspection Service Inspection Program for Poultry, Meat, Rabbit and Egg Product Plants.
