

## DIRECTIONS—BRUSH CONTROL

### RIGHT OF WAYS

ROADSIDES • DRAINAGE DITCHES  
RANGELANDS • PASTURES

**BORDER PATROL WEED AND BRUSH KILLER SOLUTION**, applied as a foliar spray, is highly effective for killing most woody plants, including hardwood and coniferous species such as alder, ash, birch, cedar, elm, gum, hickory, maple, oak, pine, and willow.

### FOLIAGE SPRAY APPLICATION

Prepare spray (water solution or oil-water emulsion), and apply any time after brush has reached the full-leaf stage until foliage begins to discolor, preferably during periods of high temperatures and high humidity. Apply as a full-coverage spray to foliage, stems, limbs and base of brush; thorough coverage is essential for best results. In roadside applications on tall, dense brush, it is often necessary to spray from field side as well as road side. Spraying away from crops planted close to right of ways will aid in preventing contact of crops with spray or drift; coarse sprays are less likely to drift. The product is not volatile.

### SPRAY PREPARATION

**WATER SOLUTION**—For each 100 Gals. of Spray: Use 10 gals. product with hydraulic equipment; use 18 to 72 gals. with air blast equipment. To improve wetting of foliage, add 1 to 2 qts. GLOBE ADHERE.

# GLOBE BORDER PATROL

## WEED & BRUSH KILLER

<b>SOLUTION</b>	
<b>ACTIVE INGREDIENT</b>	
Ammonium Sulfamate .....	38%
<b>INERT INGREDIENTS</b> .....	62%
10.9 lbs./Gal. 60F	

**CAUTION! MAY CAUSE SKIN IRRITATION.  
KEEP OUT OF REACH OF CHILDREN**

Avoid contact with skin, eyes and clothing.

In case of contact, wash off with plenty of water.  
Harmful if swallowed.

**GENERAL INFORMATION:** BORDER PATROL is a water solution containing the equivalent of 5.6 lbs. DuPont "Ammate" X Weed and Brush Killer per gal. It is highly effective for killing undesirable woody plants and for use as a contact spray for control of weeds and grasses. Temporary non-productivity of soil may be caused by heavy applications of the product; this condition usually disappears in the "over-winter" period. Some species of woody plants and perennial weeds are difficult to control, and retreatment may be necessary if regrowth occurs.

**BORDER PATROL** is water-soluble, non-volatile, and nonflammable. It is non-selective; do not apply to, or drain, or flush equipment on desirable plants or vegetation.

**IMPORTANT:** Wash sprayer thoroughly after use to remove all herbicidal solution and to reduce corrosion. Use of this product as an oil-water emulsion minimizes corrosion of equipment. If oil-water emulsion is not used, commercial equipment should be coated with an asphaltic base paint; or thoroughly wash exterior of equipment at end of each day and apply protective coating of oil each week or as often as practical. When equipment is down for week-end, wash exterior and coat with oil; for end-of-season storage, wash inside and outside and coat with oil. Rinse empty **BORDER PATROL** container thoroughly with water and discard it.

**CAUTION! MAY CAUSE SKIN IRRITATION.  
KEEP OUT OF REACH OF CHILDREN**

Avoid contact with skin, eyes and clothing.

In case of contact, wash off with plenty of water.  
Harmful if swallowed.

**ADDITIONAL INFORMATION:** BORDER PATROL is a water solution containing the equivalent of 5.6 lbs. "Ammate" X Weed and Brush Killer per gal. It is highly effective for killing undesirable woody plants. Use as a contact spray for control of weeds and grasses. Temporary non-productivity of soil may be caused by heavy applications of the product; this condition usually disappears in the "over-winter" period. Some species of woody plants and perennial weeds are difficult to control, and retreatment may be necessary in some cases.

**PRECAUTIONS:** BORDER PATROL is water-soluble, non-volatile, and nonflammable. It is non-selective; do not apply to, or flush equipment on desirable plants or vegetation.

**MAINTENANCE:** Wash sprayer thoroughly after use to remove all herbicidal solution and to reduce corrosion. When using this product as an oil-water emulsion minimizes corrosion of equipment. If oil-water emulsion is not used, commercial equipment should be coated with an asphaltic base paint; or thoroughly wash exterior of equipment at end of each day and apply protective coating of oil each week or as often as practical. When equipment is down for week-end, wash exterior and coat with oil; for end-of-season storage, wash inside and out and coat with oil. Rinse empty BORDER PATROL container thoroughly with water and discard it.

### DIRECTIONS—WEED AND GRASS CONTROL

TENNIS COURTS • DRIVEWAYS  
FENCE ROWS • INDUSTRIAL SITES

Applied as a water solution or as an oil-water emulsion. **BORDER PATROL WEED AND BRUSH KILLER SOLUTION** is an effective contact spray for control of: Woody Perennials such as poison ivy, poison oak, and poison sumac; goldenrod, perennial ragweed, milkweed, and blueweed; and Annuals such as crabgrass, broomweed, chickweed, cocklebur, Jimson weed, lambs'-quarters, larkspur, prickly lettuce, ragweed, and shepherd's-purse.

Use at rate of 18 gals. product per 100 gals. spray, either as water solution or as oil-emulsion. Prepare respective spray mixture as directed under "Brush Control" for hydraulic equipment. Thoroughly wet foliage and stems of undesired vegetation. The degree of control and duration of effect will vary with weed species, rainfall, temperature, and other conditions.
