

GLOBE

CHEMICALS, INCORPORATED

USE ONLY WHERE COMPLETE KILL IS DESIRED. Do NOT apply near desirable trees, shrubs, or other desirable vegetation.

Controls ~~annual and perennial weeds and grasses, and shallow rooted shrubs and trees. Effective for control Johnson and Bermuda grasses.~~

GENERAL INFORMATION.

END-IT is a superior vegetation killer for the control of ~~most annual and perennial grasses and broadleaf weeds on non-crop land such as industrial plants, oil and gas depots, lumber yards, transmission substations, and pole yards.~~ The effectiveness and length of time that control will last will depend on type of soil, amount of rain and other conditions.

DIRECTIONS FOR USE:

RATE: Under ordinary conditions, use at the rate of 1 to 2 gallons of END-IT per 1000 sq. feet (4/5 to 1-3/5 pints per 100 sq. feet.) Under conditions where weeds are difficult to control, use at the rate of 3 gallons of END-IT per 1000 sq. feet (2-2/5 pints per 100 sq. feet.)

HOW TO APPLY:

Use a sprayer which will distribute the required amount evenly over the area to be treated. Use a coarse spray to reduce drift. Application may be made when top growth is dense by mixing the required amount of END-IT with an equal amount of water and apply the mixture evenly over the area to be treated. Mixtures of END-IT and water should be applied as soon as possible after mixing. Gentle agitation of the spray solution may be necessary if END-IT and water are allowed to set for extended periods of time.

WEED AND VEGETATION KILLER

FOR GENERAL WEED CONTROL ON NON-CROP AREAS

ACTIVE INGREDIENTS:

Monuron Trichloroacetate	
1/2-(p-chlorophenyl)-1, 1-dimethylurea trichloroacetate/.....	6.22%
Aromatic Petroleum Derivative.....	85.65%
INERT INGREDIENTS.....	8.13

Contains 1/2 pound of Monuron Trichloroacetate per gallon.

U.S. Patents No. 2,782,112 and 2,801,911

CAUTION:

Harmful if swallowed. May cause eye irritation. May irritate nose, throat and skin. Avoid contact with skin and eyes. Avoid breathing spray mist. Wash thoroughly after handling. In case of contact, flush skin with plenty of water; for eyes get medical attention.

DESTROY container so that it may not be used again for any purpose and dispose of it at some location where no attempt to salvage will be made.

IMPORTANT: Injury to or loss of desirable or other plants may result from failure to observe the following: DO NOT apply, allow to drift or drain, or flush equipment onto or over cropland, trees or other desirable plants or areas where their roots may extend. DO NOT contaminate domestic water supplies. DO NOT allow contact with fertilizers, insecticides, fungicides or seeds. Application equipment should be thoroughly cleaned with detergent and water. Equipment which has been used to apply this product should not be used for applying insecticides, fungicides, fertilizers or other agricultural chemicals as plant injury may result. Follow directions carefully. Timing and methods of application, weather and crop conditions, mixtures with other chemicals not specifically recommended and other influencing factors in the use of this product are beyond the control of the seller. Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith.

WEED AND VEGETATION KILLER

ICALS, INCORPORATED

COMPLETE KILL IS DESIRED. Do NOT use on trees, shrubs, or other de-

perennial weeds and grasses, shrubs and trees. Effective on Bermuda grasses.

For use as a pre- or vegetation killer for the control of annual and perennial grasses on non-crop land such as oil and gas depots, lumber mill sub-stations, and pole lines. Effectiveness and length of time of control will depend on type of weeds and other conditions.

Under favorable conditions, use at the rate of 3 gallons of END-IT per 1000 sq. ft. (2-2/5 pints per 100 sq. feet.) where weeds are difficult to control. The rate of 3 gallons of END-IT per 1000 sq. ft. (2-2/5 pints per 100 sq. feet.)

When spraying, distribute the material evenly over the area to be treated. Pre-spray to reduce drift. Spray is made when top growth is present. Use the required amount of END-IT and amount of water and apply evenly over the area to be treated. END-IT and water should be mixed as soon as possible after mixing. Some of the spray solution may be lost. END-IT and water are all-weather products for extended periods of time.
