

# UNI QUAT 14

UNI-QUAT 14 is a cleaner, disinfectant, and sanitizer designed for general household and light industrial cleaning. For use on walls, floors and any inanimate hard surfaces. When used as directed, UNI-QUAT 14 will also deodorize those areas which generally are hard to keep fresh smelling, such as garbage pails, sink tops, and bathroom areas which are prone to odors caused by the growth of some microorganisms. Effective against Staphylococcus aureus and Salmonella Choleraesuis at 2 ozs. per gallon. Also effective against pathogenic fungi, Trichophyton interdigitale, at this use dilution.

At 3 ozs. per gallon, a hospital disinfecting claim against Pseudomonas aeruginosa can be made.

When used for sanitization of food processing and food contact items, limit the active quaternaries to 200 ppm. At this level No Potable Water Rinse is required.

### USE DIRECTIONS:

Use at 2 ozs. per gallon. This product will provide 500 ppm quaternary to the use solution. This is enough for general disinfection, fungicidal activity against pathogenic fungi and deodorizing.

For best results, use UNI-QUAT 14 with a cloth or mop and apply to walls, floors, table tops, counters and garbage pails.

For heavy soil, a pre-cleaning step is recommended before using UNI-QUAT 14.

Rinse empty container thoroughly with water and discard.

## **DANGER**

Keep out of Reach of Children. See right side of panel for additional precautionary and first aid statements.

EPA. EST. NO. 10155-OH-1

## **GLOBE CHEMICALS, INC.**

45 DUREANK DR.  
TOLEDO, OHIO 43607

### ACTIVE INGREDIENTS:

n-Alkyl (60% C <sub>14</sub> , 30% C <sub>16</sub> 5% C <sub>12</sub> , 5% C <sub>18</sub> ) dimethyl benzyl ammonium chlorides .....	1.6%
n-Alkyl (68% C <sub>12</sub> , 32% C <sub>14</sub> ) dimethyl ethylbenzyl ammonium chlorides.....	1.6%
Sodium Carbonate.....	3.0%
INERT INGREDIENTS .....	93.8%
	100.0%

## **DANGER**

Keep out of Reach of Children. **CORROSIVE.** Causes eye damage and skin irritation. Do not get in eyes, on skin or on clothing. Protect eyes and skin when handling concentrate. Harmful if swallowed. Avoid contamination of food.

### FIRST AID:

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash all contaminated clothing before reuse. If swallowed, drink milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. CALL A PHYSICIAN.

### NOTE TO PHYSICIAN:

Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.
