

APPLICATIONS

Algaelene is used to control the growth of algae in swimming pools. For maximum effectiveness, pools containing heavy growth of algae should be cleaned prior to using Algaelene.

For pools having just visible algae growth add an initial dose of 75 to 115 fl. oz. of Algaelene per 10,000 gal. of water and remove settled algae debris by cleaning.

For treatment of a freshly cleaned and filled pool, add initially 41 to 75 fl. oz. of Algaelene per 10,000 gal. of water.

To maintain pools free of visible algae growth, subsequent additions of 13.5 to 27 fl. oz. of Algaelene per 10,000 gal. of water should be made every 5 to 7 days after the initial treatment.

Uniform distribution of Algaelene throughout the water in the pool is necessary; for maximum effectiveness.

Algaelene is compatible with those chemicals normally used to treat pools and is effective at both acid and alkaline pH. Algaelene can be used in pools treated with chlorine chemicals and may reduce the amount of those chemicals normally required. However, do not mix Algaelene with concentrated dry or liquid chlorine products.

ALGAELENE

COMPOSITION

Active ingredients:
Poly[oxyethylene
(dimethyliminio)
ethylene (dimethyl-
iminio) ethylene
dichloride].....10.0%

Inert ingredient.....90.0%

MANUFACTURED BY

GLOBE CHEMICAL INC.

45 BURSANK DR.
TOLEDO, OHIO 43607

ACCEPTED
10155-2
APR 18 1975
UNDER THE FEDERAL INSECTICIDE
FUNGICIDE AND ROBOTICIDE ACT
FOR ECONOMIC POISON REGISTER-
ED UNDER NO.

CAUTION

KEEP OUT OF THE REACH OF CHILDREN

Harmful if swallowed. Do not get in eyes. Avoid contact with skin. In case of contact flush with plenty of water for at least 15 minutes. If eye irritation persists get medical attention. Avoid contamination of food.

This product is toxic to fish. Treated effluent should not be discharged where it will drain into lakes, streams, ponds, or public water. Apply this product only as specified on this label.

Do not reuse empty drum. Return to drum reconditioner or destroy by perforating or crushing and burying in a safe place away from water supplies.
