Subject: Label – Voluntary Use Deletion for Removal of Various Agricultural Crops and Ornamentals  
Product Name: Botran Technical  
EPA Registration Number: 10163-195  
Application Date: 08/20/2019  
Decision Number: 554871

Dear Ms. Smith:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

This amendment supports the notification of use termination submitted by Gowan Company to voluntarily amend the registration of Botran Technical to terminate the following uses:

<b>Table 1</b>	
<b>EPA Registration Name and Number</b>	<b>Use Deletion</b>
Botran Technical, EPA registration No. 10163-195	apricots, chrysanthemums, conifers, hydrangeas, geraniums, gladiolus, grapes, greenhouse cucumbers, greenhouse lettuce, greenhouse rhubarb, greenhouse tomato, nectarines, peaches, plums/prunes, potatoes, roses, and sweet cherries.

The Notice of Request to Voluntary Amend to Terminate Uses of the above registration and specified uses were published in the Federal Register on March 16, 2016, and the comment period ended on September 12, 2016. The Agency received ten comments on this notice; none of which would affect the Agency's action nor a written withdrawal for the use deletion from Gowan Company.

Pursuant to FIFRA section 6(f) (7 U.S.C. 136d(f)), the Agency hereby approves the requested amendment to terminate uses of Botran Technical identified in Table 1 above. Accordingly, the Agency orders that the product registration identified in Table 1 above is hereby amended to terminate the affected uses. Any distribution, sale, or use of existing stocks of the subject product in a

manner inconsistent with any of the provisions for disposition of existing stocks set forth below will be considered a violation of FIFRA.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. The review of this label entailed only the removal of the aforementioned uses. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. Existing stocks are those stocks of registered pesticide products which are currently in the United States and which were packaged, labeled, and released for shipment prior to the effective date of this action terminating uses. In accordance with the Order to Amend Pesticide Registrations to Terminate Uses (apricots, chrysanthemums, conifers, gladiolus, grapes, greenhouse cucumbers, greenhouse lettuce, greenhouse rhubarb, greenhouse tomato, nectarines, peaches, plums/prunes, roses, and sweet cherries) published in the Federal Register on February 1, 2018, you may distribute or sell this product under the previously approved labeling until February 1, 2019. Persons other than the registrant may continue to sell and/or use existing stocks of products bearing old labeling until such stocks are exhausted, provided that such use is consistent with the terms of the previously approved labeling on, or that accompanied, the product with the terminated use. After February 1, 2019, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6.
