GOWAN COMPANY  
P. O. Box 5569  
Yuma, AZ 85366

SUBJECT: Label Amendment - Interim Reregistration Eligibility Document  
Betasan Technical, EPA Reg. No. 10163-201  
Your Letter Dated October 12, 2000

The above mentioned amendment submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended is acceptable provided you make the required changes listed below:

1. The turfgrass use site should be better defined.
2. The following use sites must be removed from the label:  
"ornamentals and groundcovers".

Submit one (1) copy of your final printed labeling before you release the product for shipment. The amended labeling supersedes all previously accepted ones. A stamp copy of the labeling is enclosed for your records.

Sincerely,

Jim Tompkins  
Product Manager 25  
Herbicide Branch

<b>INERT INGREDIENTS</b> .....	8.0%
<b>TOTAL</b>	<b>100.0%</b>

## KEEP OUT OF REACH OF CHILDREN WARNING

FOR EMERGENCY MEDICAL RESONSE AND HAZARD COMMUNICATIONS ONLY CALL 1-800-228-5635 EXT. 283.

### PRECAUTIONARY STATEMENTS Hazards to Humans and Domestic Animals WARNING

Harmful if swallowed, inhaled, or absorbed through the skin. Avoid contact with skin, eyes, or clothing. Avoid breathing vapor, mist, or dust. When handling, wear goggles, face shield, rubber gloves, appropriate NIOSH-approved pesticide respirator, and protective clothing.

Keep out of domestic or animal water supplies. Do not store or transport with food or animal feed.

### ENVIRONMENTAL HAZARDS

This chemical is toxic to fish and aquatic invertebrates, and poses a risk to reproduction of birds. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (PRDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your state Water Board of Regional Office of the EPA

### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. This pesticide is for the further manufacture of formulated herbicides only. Formulators using this product are responsible for obtaining EPA registration for their formulated products.

Only for formulation into a herbicide for the following uses:

#### Terrestrial food use on (preplant, preemergence, or soil incorporation only):

- Bulb onions
- Lawns
- Carrots
- Cucurbits Crop Group
- Cole Crops Crop Group
- Fruiting Vegetables Crop Group
- Garlic
- Leafy Vegetables Crop Group
- Shallots

#### Terrestrial non-food use on:

- Turf grass
- Ornamental and Ground Covers

**ACCEPTED  
with COMMENTS  
In EPA Letter Dated**

NOV 22 2000

Under the Federal Insecticide,  
Fungicide, and Rodenticide Act  
as amended, for the pesticide  
registered under EPA Reg. No.

16163-201

Use for which USEPA has accepted the required data and/or citations of data that the formulator has submitted in support of registration and uses for experimental purposes that are in compliance with USEPA requirements.

500 LB. NET WT. (227 Kg)

EPA Reg. No. 10163-201  
EPA Est. No. 10182-AL-1

Gowan Company  
P.O. Box 5569  
Yuma, Arizona 85366-5569

### STORAGE AND DISPOSAL

**DO NOT** contaminate water, food or feed by storage or disposal.

**STORAGE:** Store at warm temperatures, but not above 115°F. Some crystallization may occur at 95°F, but product normally super-cools to remain liquid at much lower temperatures. Use warm water (110°-140°F) on exterior of vented drum(s) to melt any crystallized material. Do not contaminate BETASAN with water.

**DO NOT USE STEAM.** Use jacketed or insulated equipment for bulk transfer and storage to prevent crystallization.

**PESTICIDE DISPOSAL:** Wastes resulting from the use of the product may be disposed of on site or at an approved waste disposal facility.

**CONTAINER DISPOSAL:** Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

**SPILL OR LEAK:** Make sure all personnel involved in spill are aware of the hazards associated with this material. A small spill can be handled routinely considering the physical and hazardous properties of the products as well as the location of the spill. Use adequate ventilation and wear an air-supplied respirator to prevent inhalation contact. Wear protective clothing to prevent skin and eye contact. Soak up pooled liquid as follows:

1. If BETASAN is in the liquid state: Spread a suitable absorbent such as clay on the liquid. If BETASAN is in the solid state: Sweep up the powder being careful not to create dust.
2. Place sweepings in an open drum.
3. Generously cover the contaminated area with a common household detergent. Using a stiff brush, work the detergent into the spill material adding sufficient water to form slurry. Brush the slurry into cracks and crevices and allow to stand for 2 to 3 minutes. Be careful to completely avoid skin or eye contact; do not splatter on one's self or bystanders.
4. Spread absorbents on the slurry liquid, and shovel the absorbed material into an open drum.
5. Repeat if necessary.
6. Flush area with water, while observing proper environmental considerations.
7. Seal drum and dispose of contaminated material in an approved pesticide dump.

Large spills must be handled according to a predominated plan. For assistance in developing a plan, contact Gowan Company.

**FOR 24-HOUR EMERGENCY ASSISTANCE (SPILL, LEAK OR FIRE), CALL CHEMTREC® (800) 424-9300.**  
For other product information, contact Gowan Company or see Material Safety Data Sheet.
