Kyla Smith Registration Specialist Gowan Company P.O. Box 5569 Yuma, AZ 85366

Subject: Label Amendment – One Year Extension of Supplemental Label

Product Name: Magister SC Miticide EPA Registration Number: 10163-322 Application Date: September 29, 2023

Decision Number: 594499

#### Dear Kyla Smith:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, is acceptable. This approval is an exception based on evaluation of the unique facts related to this registration only, and shall not be used as a basis to seek or justify similar terms in any subsequent matter. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is attached for your records. This labeling supersedes all previously accepted supplemental labeling. The next label printing of this product must use the last accepted master label unless subsequent changes have been approved. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c) and this extension, you may continue to distribute or sell this product under the previously approved labeling for 12 months from the date of this letter. After 12 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims

substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6.

If you have any questions, please contact Debra Rate at (202) 566-2867 or by email at <a href="mailto:rate.debra@epa.gov">rate.debra@epa.gov</a>.

Sincerely,

Michael Walsh Product Manager 11
