Subject: Label Amendment – extend expiration date of supplemental label
Product Name: Fenstar Fungicide
EPA Registration Number: 10163-373
Application Date: April 22, 2024
Case Number: 607938

Dear Dennese Grimm:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or

claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6.

If you have any questions, please contact Elisha Graham at graham.elisha@epa.gov.

Sincerely,

A handwritten signature in black ink, appearing to read 'Kable Bo Davis', enclosed within a hand-drawn oval.

SUPPLEMENTAL LABEL

SUPPLEMENTAL LABELING

This supplemental label expires on April 17, 2026, and must not be used or distributed after this date.

FENSTAR FUNGICIDE

ABN: FENAMIDONE 500 SC FUNGICIDE, FENSTOP FUNGICIDE

A Fungicide used for the Prevention and Control of Certain Diseases of Commercially Grown Ornamentals, in greenhouses, outdoor nurseries, shade houses, and saran houses only. Not for Residential Use.

ACTIVE INGREDIENT:

Fenamidone: (5S)-3,5-dihydro-5-methyl-2-(methylthio)-5-phenyl-3-(phenylamino)-4H-imidazol-4-one:44.4%

OTHER INGREDIENTS:55.6%

TOTAL: 100.00%

Equivalent to 500 g/L or 4.13 lbs. active ingredient per gallon.

KEEP OUT OF REACH OF CHILDREN WARNING

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Read all Directions for Use carefully before applying.

DO NOT apply this product in a way that will contact workers or other persons, or pets directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation. This labeling must be in possession of the user at the time of application. Read the label affixed to the container for FENSTAR FUNGICIDE before applying. Use of FENSTAR FUNGICIDE according to this labeling is subject to the use precautions and limitations imposed by the label affixed to the container for FENSTAR FUNGICIDE.

In the State of New York only; not for sale, distribution or use in Nassau or Suffolk County.

ORNAMENTALS

Use FENSTAR FUNGICIDE on ornamentals including but not limited to Alyssum, Azalea, Bee Balm (Monarda), Easter Lily, English Ivy, Geranium, Hybrid Tea roses, Ivy, Lilac, Pelargonium, Poinsettia, Rhododendron, Spathiphyllum and Vinca, grown in greenhouses, outdoor nurseries, shade houses, and saran houses for control of diseases caused by Pythium, Phytophthora, and downy mildew.

Applications should be made prior to disease development and should be made in conjunction with good cultural management practices. Use the higher rate and/or shorter interval when disease pressure is severe. Do not exceed recommended rates or apply more frequently than at specified intervals or plant injury may occur.

PLANT TOLERANCE: Plant tolerances to FENSTAR FUNGICIDE have been found to be acceptable in the specific genera and species listed on this label. It is not possible to evaluate every species or variety of ornamental plant for its tolerance to FENSTAR FUNGICIDE. The user should test for possible phytotoxic responses in other plants on a small area basis using recommended rates prior to commercial use.

APPLICATION INFORMATION

FOLIAR APPLICATIONS (greenhouses, outdoor nurseries, shade houses, and saran houses): For Downy Mildew and foliar Phytophthora control, dilute 7.0-14.0 fl. oz. (0.226-0.452 lb. AI) of product in no more than 100 gallons of water per acre. Spray foliage to the point of drip. Repeat no less than 28 days after each application as needed. Do not apply more than four applications of the maximum rate per year. Do not apply more than 56 fl. oz. of product per acre per year (no more than 1.807 lb. AI per acre per year).

DRENCH APPLICATIONS (greenhouses, outdoor nurseries, shade houses, and saran houses): For Pythium and Phytophthora control, mix 7.0 to 14.0 fl. oz. of product with 100 gallons of water (Drench Solution). Apply as a drench (see Table below for volume) and repeat no less than 28 days after each application as needed to protect the new root growth and the crown of the plant. Use sufficient volume to wet potting medium without loss of liquid from the bottom of the container. Do not apply more than 4 applications of the maximum rate per year. Do not apply more than 56 fl. oz. of Fenstar per crop production cycle for greenhouse and container grown ornamentals in nurseries.
