

**PRECAUTIONARY STATEMENTS  
DANGER**

**THIS PRODUCT IS HIGHLY TOXIC TO BEES** exposed to direct treatment or residues on crops. Protective information may be obtained from your Cooperative Agricultural Extension or Service.

This Product is toxic to fish, birds, and other wildlife. Birds feeding on treated areas may be killed. Keep out of lakes, streams, ponds, tidal marshes and estuaries. Do Not apply where runoff is likely to occur. Do Not apply when weather conditions favor drift from areas treated. Do Not contaminate water by cleaning of equipment or disposal of wastes. Shrimp and Crabs may be killed at application rates recommended on this label. Do Not apply where these are important resources. Apply this product only as specified on this label. **DO NOT APPLY** in edible product areas of food processing plants, restaurants or other areas where food is commercially prepared or processed. Do Not use in serving areas while food is exposed.

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Read entire label. Use strictly in accordance with cautions, warnings and directions, and with applicable state and federal regulations. Timing may vary as a consequence of local weather or conditions; we recommend reference to Agricultural Experiment Stations on specific timing.

**STORAGE AND DISPOSAL**

Do not contaminate water, food or feed by storage or disposal. Open dumping is prohibited. Do not reuse empty container.

Pesticide, spray mixture or rinsate that cannot be used or chemically reprocessed should be disposed of in a landfill approved for pesticides or buried in a safe place away from water supplies.

Triple rinse (or equivalent) and dispose in an incinerator or landfill approved for pesticide containers, or bury in a safe place.

Consult Federal, State or local disposal authorities for approved alternative procedures such as limited open burning.

**PROKIL NALED** is a liquid insecticide for the control of both sucking and crawling insects. It may be applied as a conventional diluted spray or as a concentrate spray according to directions. The normal requirements for the following application methods are as follows: Vegetable and Field Crops: Air 7-15 gals. per acre; Ground 20-200 gals. per acre. Small Fruits: Air 7-15 gals. per acre; Ground 20-200 gals. per acre. Tree Crops (mature): Air 10-20 gals. per acre; Ground 40-200 gals. per acre. Citrus (mature): Air 10-20 gals. per acre; Ground 100-1500 gals. per acre.

May be applied up to 4 days before harvest, branding or hand picking unless otherwise noted. Begin application at first sign of insects. Repeat as necessary. Do not use with highly alkaline materials such as lime or bordeaux. **MIXING DIRECTIONS:** Add to spray tank when 1/2 to 3/4 full with agitator running and maintain agitation until spraying is completed.

**USE DESIGNATED RATE BY GROUND EQUIPMENT AS A THOROUGH COVERAGE SPRAY:** ALFALFA (Seed): Lygus, Mite Suppression (1 application) 1 pt. per acre. Mites 1-2 pints per acre; 2 applications at 7 day intervals. Thrips 1 pt. per acre. Combine with recommended chemicals for residual control. **DO NOT** apply within 4 days of harvest.

**BEANS (Dry or Field): SOYBEANS, LIMA BEANS AND PEAS for Processing:** Alfalfa Looper, Aphids, Spider Mites, Lygus, Leaf Miner; **GREEN BEANS:** Aphids, Spider Mites,

**PROKIL  
NALED INSECTICIDE**

**DANGER**

**KEEP OUT OF REACH OF CHILDREN**

**DANGER**

Concentrate causes skin and eye damage. Do not get on skin, eyes or clothing. Use water proof gloves and face shield or goggles when handling concentrate. May be fatal if swallowed or absorbed through the skin. Do not breathe spray mist. In case of contact immediately remove contaminated clothing and flush skin or eyes with plenty of water. For eyes, use special attention. Avoid contact with food, feed, milk, and water. **DO NOT USE FOR SPILL OR STORE NEAR HEAT OR OPEN FLAME.** Use only in accordance with label directions. Liquidambar of trees, their buds and fruit, may be injured.

**NOTE TO PHYSICIAN: ATROPINE IS ANTIDOTAL. 2-PAM IS ALSO ANTIDOTAL AND MAY BE ADMINISTERED IN CONJUNCTION WITH ATROPINE.**
