Subject: PRIA Label Amendment – New use on ginseng and tomato subgroup 8-10A
Product Name: Zoxamide Technical
EPA Registration Number: 10163-6415
Application Date: 12/5/2014
Decision Number: 498219
Petition 4E8335; Decision number 498225

Dear Ms. Foley:

The application referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable under FIFRA Section 3(c)(7)(B), subject to the following conditions:

1. You must submit and/or cite all data required for registration/reregistration/registration review of your product under FIFRA when the Agency requires all registrants of similar products to submit such data.
2. You are required to comply with the data requirements described in the DCI identified below:

Zoxamide GDCI-101702-1473

<https://www.regulations.gov/document?D=EPA-HQ-OPP-2014-0391-0015>

You must comply with all of the data requirements within the established deadlines. If you have questions about the Generic DCI listed above, you may contact the Chemical Review Manager in the Pesticide Reevaluation Division:

<http://iaspub.epa.gov/apex/pesticides/f?p=chemicalsearch:1>

NOTE: The analytical standard for zoxamide metabolites (RH1452 and RH1455) and derivatives (RH147391 and RH147399) in EPA's National Pesticide Standards Repository have expired or are available only in 1 gram. The registrant is required to submit a reasonable amount of the analytical reference standard for these metabolites and derivatives.

The reference standard must be sent to the Analytical Chemistry Lab, to the attention of either Theresa Cole or Thuy Nguyen at the following address:

USEPA

*National Pesticide Standards Repository/Analytical Chemistry Branch/OPP
701 Mapes Road
Fort George G. Meade, MD 20755-5350*

(Note that the mail will be returned if the extended zip code is not used.)

The deadline for you to submit these required standards to the Agency is 6/15/2017.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one (1) copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If you fail to satisfy these data requirements, EPA will consider appropriate regulatory action including, among other things, cancellation under FIFRA section 6(e). If you have any questions, please contact Lindsay Roe by phone at 703-347-0506, or via email at roe.lindsay@epa.gov.

Sincerely,

Cynthia Giles-Parker, Chief
Fungicide Branch, Registration Division (7505P)
