## RODENTICIDE BAIT PACK (MINI-PELLETS) For Effective Indoor Control of Commensal Mice and Rats

### PRECAUTIONARY STATEMENTS

#### HAZARDS TO HUMANS AND DOMESTIC ANIMALS

#### CAUTION

MAY BE HARMFUL OR FATAL IF SWALLOWED. KEEP AWAY FROM HUMANS, DOMESTIC ANIMALS, AND PETS. WASH HANDS AFTER HANDLING BAIT IF BAIT IS EATEN BY HUMANS. CALL A PHYSICIAN AT ONCE.

For 24-hour emergency assistance call 302-575-3000.  
In case of significant spill, call CHEMTREC 800-424-9300.

#### NOTE TO PHYSICIAN

This product may reduce the clotting ability of the blood and cause hemorrhaging, if this occurs, intravenous and/or oral administration of vitamin K<sub>1</sub> combined with blood transfusions are indicated as in the case of hemorrhage caused by overdoses of dihydrocoumatol. Vitamin K<sub>1</sub> is antidotal at doses of 10 to 20 mg.

#### ENVIRONMENTAL HAZARDS

This product is toxic to fish and wildlife. Keep out of lakes, streams or ponds.

#### STORAGE AND DISPOSAL

**STORAGE:** Do not contaminate water. Keep out of reach of children. Do not feed by storage or disposal. Open dumping is prohibited. Do not reuse empty container.

**DISPOSAL:** Bait that cannot be used should be disposed of in a landfill approved for pesticides or buried in a safe place away from water supplies. Dispose of container in an incinerator or landfill approved for pesticide containers, or bury in a safe place. Consult Federal, State or local disposal authorities for approved alternate procedures such as limited open burning.

#### High resistance-resistant Norway Rats

Products may consume a lethal dose in one feeding with first food rodents appearing dead or the days after treatment begins.

#### Active Ingredient

Brodifacoum  
3-[3-(4-bromo-1,1-biphenyl)-4-yl]-1,2,3,4-tetrahydro-1-naphthyl-4-hydroxy-2H-1-benzopyran-2-one

EPA Est. No. 523 IL 1

Net Contents: 150-25 grams (0.88 oz) bait packs

Batch Number

#### DIRECTIONS FOR USE

#### GENERAL CLASSIFICATION

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**USE RESTRICTIONS:** For control of Norway rats, roof rats and house mice in homes, industrial buildings and commercial buildings. TALON may also be used inside transport vehicles (ships, trains, etc.) and in areas where rodents are a problem. For indoor use only. Bait packs must be placed in tamper-proof bait boxes or in locations not accessible to children, cats, dogs, etc. and the cap or lid should be placed on areas where there is a possibility of contact with faces that come in direct contact with food.

**SELECTION OF TREATMENT AREAS:** After removing as much food as possible and harborage as possible, determine areas where rats or mice are most likely to feed and consume the bait. Generally, these areas are along walls, by gnawed openings in or beside walls, in corners and concealed places, between tracks and walls, or in locations where rodents or their signs have been observed.

#### APPLICATION DIRECTIONS

##### Norway and Roof Rats

Apply 4 to 16 bait packs (usually at intervals of 15 to 30 feet) per placement. Maintain an uninterrupted supply of fresh bait for 10 days or until signs of rat activity cease.

##### House Mice

Apply 1 bait pack at intervals of 8 to 12 feet per placement. 2 bait packs may be needed at points of very high mouse activity. Maintain an uninterrupted supply of fresh bait for 15 days or until signs of mouse activity cease.

##### Rats & Mice

Replace contaminated or spoiled bait immediately. Collect and dispose of all dead animals and unconsumed bait properly. Repeat treatment when infestation recurs. Where continuous source of infestation is present, establish permanent bait stations and replenish bait as needed.
