Ms. Diane L. Ierley
ICI Americas, Inc.
Concord Pike & New Murphy Road
Wilmington, DE 19897

Dear Ms. Ierley:

Subject: Talon-G Rodenticide Pellets
EPA Registration No. 10182-38
Re: Labels Submitted in Response to the Agency's
Inert Policy
Your Letter Dated October 19, 1987

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), is acceptable subject to the comment listed below.

- The "inerts of concern" statement must be in a type size larger than, or equal to, the heading used in the ingredients statement.

Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

If this condition is not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of this condition.

A stamped copy of the label is enclosed for your records.

Sincerely yours,

William H. Miller
Product Manager (16)
Insecticide-Rodenticide Branch
Registration Division (TS-767C)

RODENTICIDE PELLETS

For Effective Control of Commensal Mice and Rats

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS CAUTION

MAY BE HARMFUL OR FATAL IF SWALLOWED. KEEP AWAY FROM HUMANS, DOMESTIC ANIMALS, AND PETS. WASH HANDS AFTER HANDLING BAIT.

IF BAIT IS EATEN BY HUMANS, CALL A PHYSICIAN AT ONCE. For 24-hour emergency assistance, call ICI Americas Inc. Medical Emergency Information Center 1-800-327-8633.

IF BAIT IS EATEN BY ANIMALS OR PETS, CALL ICI Americas Inc. Medical Emergency Information Center 1-800-327-8633 for 24-hour emergency assistance.

In case of significant spill, call CHEMTREC 800/424-9300.

NOTE TO PHYSICIAN OR VETERINARIAN

This product may reduce the clotting ability of the blood and cause hemorrhaging. If poisoning occurs, intramuscular and oral administration of vitamin K₁ are indicated, as in poisoning from overdose of bishydroxy coumarin. For human cases, vitamin K₁ is antidotal at doses of 10-20 mg (not mg/kg). For animal cases, vitamin K₁ is antidotal at 2-5 mg/kg. F...peated doses may need to be given up to two weeks (based on monitoring of prothrombin time). In severe cases, blood transfusions may be necessary.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds and wildlife. This product can pose a secondary hazard to birds of prey and mammals. Keep out of any body of water.

NOTICE TO BUYER AND USER: Seller warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated on the label when used in accordance with directions under normal conditions of use. This warranty does not extend to the use of this product contrary to label instructions, or under abnormal use conditions, or under conditions not reasonably foreseeable to Seller, and Buyer and User assumes the risk of any such use. SELLER DISCLAIMS ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY WARRANTY OF FITNESS OR MERCHANTABILITY. SELLER SHALL NOT BE LIABLE FOR CONSEQUENTIAL, SPECIAL OR INDIRECT DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT AND SELLER'S SOLE LIABILITY AND BUYER'S AND USER'S EXCLUSIVE REMEDY SHALL BE LIMITED TO THE REFUND OF THE PURCHASE PRICE.

Kills warlike-resistant Norway Rats and house mice. Rodents may consume a lethal dose in one feeding with first dead rodents appearing four or five days after treatment begins.

Active Ingredient:

Brodifacoum-

3-[3-(4'-bromo-[1,1'-biphenyl]-4-yl)-1,2,3,4-tetrahydro-1-naphthalenyl]-4-hydroxy-2H-1-benzopyran-2-one

Inert Ingredients

This product contains the toxic inert ingredient Rhodamine B.

This product is protected by U.S. patent numbers 3957674 and 4035505 which are the property of Waco Biotechnology and Company Limited.

EPA Reg No 10162-38 EPA Est. No 2393 WI-1
Net Contents 45 lb (20.4 kg)

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. Storage: Store in original container only in a dry place inaccessible to children and pets. Pesticide Disposal: Wastes resulting from the use of this product should be disposed of on site or at an approved waste disposal facility. Container Disposal: Dispose of bait container in a sanitary manner allowed by state and local authorities.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with labeling.

USE RESTRICTIONS: For control of Norway Rats, Roof rats, house mice, industrial, commercial, agricultural and public buildings, homes, and around transport vehicles (ships, trains, aircraft, etc.). Do not use in sewers. This product must be placed in locations not accessible to children, pets, domestic animals, or in areas where there is a possibility of contaminating direct contact with food.

Authorized by the USDA for use in Federally inspected processing plants.

SELECTION OF TREATMENT AREAS: Determine areas where rodents are likely to find and consume the bait. Generally, these areas are openings, in or beside burrows, in corners and concealed places or in locations where rodents or their signs have been observed as possible.

APPLICATION DIRECTIONS

Norway and Roof Rats:

Apply 4 to 16 ounces of bait (usually at intervals of 15 to 20 feet) to maintain an uninterrupted supply of fresh bait for 10 days or until all rats are dead.

House Mice:

Apply 1/4 to 1/2 ounce of bait at intervals of 8 to 12 feet (up to 2 ounces) may be needed at points of very high infestation to maintain an uninterrupted supply of fresh bait for 15 days or until all mice are dead.

Rats & Mice: Replace contaminated or spoiled bait immediately. Contaminated and unconsumed bait according to "Disposal" instructions, eliminate food, water, and harborage as much as possible, repeat treatment. Where a continuous source of infestation exists, maintain permanent bait stations and replenish bait as needed.
