

ACCEPTED

JUN 2 1982

Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for the pesticide registered under EPA Reg. No. 10182-48

WeatherBlok™

Made with TALON™ Rodenticide

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

MAY BE HARMFUL OR FATAL IF SWALLOWED. KEEP AWAY FROM HUMANS, DOMESTIC ANIMALS, AND PETS. WASH HANDS AFTER HANDLING BAIT

IF BAIT IS EATEN BY HUMANS, CALL A PHYSICIAN AT ONCE For 24-hour emergency assistance call 302/575-3000.

IF BAIT IS EATEN BY ANIMALS OR PETS, CALL 217/333-3611 or 302/575-3000 for 24-hour emergency assistance

NOTE TO PHYSICIAN OR VETERINARIAN

This product may reduce the clotting ability of the blood and cause hemorrhaging. If this occurs, intramuscular and oral administration of vitamin K₁ combined with blood transfusions are indicated as in the case of hemorrhage caused by overdoses of bishydroxycoumarin. Vitamin K₁ is antidotal at doses of 10 to 20 mg (not mg/kg) and should be given and repeated as necessary (based on monitoring of prothrombin times)

ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds and wildlife. This product can pose a secondary hazard to birds of prey and mammals. Keep out of any body of water.

NOTICE TO BUYER AND USER: Seller warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated on the label when used in accordance with directions under normal conditions of use. This warranty does not extend to the use of this product contrary to label instructions, or under abnormal use conditions, or under conditions not reasonably foreseeable to Seller and Buyer and User assumes the risk of any such use. SELLER DISCLAIMS ALL OTHER WARRANTIES, EXPRESSED OR IMPLIED, INCLUDING ANY WARRANTY OF FITNESS OR MERCHANTABILITY. SELLER SHALL NOT BE LIABLE FOR CONSEQUENTIAL, SPECIAL OR INDIRECT DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT AND SELLER'S SOLE LIABILITY AND BUYER'S AND USER'S EXCLUSIVE REMEDY SHALL BE LIMITED TO THE REFUND OF THE PURCHASE PRICE

Kills warfarin-resistant Norway Rats and house mice. Rodents may consume a lethal dose in one feeding with first dead rodents appearing four or five days after treatment begins.

Active Ingredient:

Brodifacoum-

3-[3-(4'-bromo-[1,1'-biphenyl]-4-yl)-1,2,3,4-tetrahydro-1-naphthalenyl]-4-hydroxy-2H-1-benzopyran-2-one 0.005%

Inert ingredients 99.995%

Total 100.000%

KEEP OUT OF REACH OF CHILDREN CAUTION

May Be Harmful or Fatal if Swallowed. Read Additional Precautionary Statements on Side Panel.

ICI Americas Inc.

Wilmington, Delaware 19897

EPA Reg. No 10182-48

EPA Est No 523-IL-1

Net Contents: 4 x 12/300 gm (10.58 oz.) bait blocks

STORAGE AND DISPOSAL

STORAGE: Do not contaminate water, food or feed by storage or disposal. Open dumping is prohibited. Do not reuse empty container.

DISPOSAL: Bait that cannot be used according to label instructions must be disposed of according to applicable Federal, State, or local procedures. Dispose of bait containers in a sanitary landfill or by incineration if allowed by State and local authorities.

DIRECTIONS FOR USE

GENERAL CLASSIFICATION

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

USE RESTRICTIONS: For control of Norway rats, Roof rats and House mice in and around sewers, homes, industrial, commercial, agricultural and public buildings. WEATHER BLOK may also be used in and around transport vehicles (ships, trains, aircraft) and related port or terminal buildings. WEATHER BLOK must be placed in tamper-proof bait boxes or in locations not accessible to children, pets, domestic animals or wildlife such as in burrows which are then closed. Do not place bait in areas where there is a possibility of contaminating food or surfaces that come in direct contact with food.

Authorized by the USDA for use in Federally inspected meat, poultry and egg processing plants

APPLICATION DIRECTIONS

Norway and Roof Rats: Apply 1/2 to 1 1/2 WEATHER BLOK (usually at intervals of 15-30 ft.) per placement. Maintain an uninterrupted supply of fresh bait for 10 days or until signs of rat activity cease. When infestations are limited to overhead areas in or around buildings, tie or fasten WEATHER BLOK securely in protected locations on fences, poles, beams or other overhead areas where signs indicate rodents are active.

For use in sewers, securely attach one end of a wire to WEATHER BLOK and the other end to a stationary structure such as the bottom step of a manhole ladder or to a sewer grate, allowing just enough wire for the block to rest on manhole benching. If benching is not present, suspend block a few inches above the high water line or place WEATHER BLOK on a board supported by opposing steps of the ladder. Securing WEATHER BLOK in this manner will prevent removal by rats or water. Place at least one WEATHER BLOK per manhole. Maintain an uninterrupted supply of fresh bait for at least 10 days or until feeding stops.
House Mice: Apply 1 mouse wedge (each 1/12 of WEATHER BLOK) at intervals of 8-12 feet per placement. Larger placements (2 wedges) may be needed at points of very high mouse activity. Maintain an uninterrupted supply of fresh bait for 15 days or until signs of mouse activity cease. For use in sewers apply according to above directions for rats.
