**NOTE** Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an endorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

**SIGNATURE OF APPROVING OFFICIAL**

**ATTACHMENT IS APPLICABLE**
1. Submit six (6) copies of your final printed labeling before we release the product for shipment. Refer to the A-7c enclosure for a further description of final printed labeling.

2. Submit production information (pounds or gallons produced) for this product for the fiscal year in which the use on cotton, lettuce and pecans is conditionally registered, in accordance with FIFRA Section 7(b). The fiscal year begins on October 1 and ends September 30. The production information will be submitted to the Agency no later than November 15, following the end of the preceding fiscal year. This information should be submitted to:

Registration Support Branch
Registration Division (TS-7676)
Environmental Protection Agency
402 M Street SW
Washington, DC 20460

A stamped copy of the label is enclosed for your records.

RESTRICTED USE PESTICIDE

For retail sale to and use only by Certified Applicators, or persons under their direct supervision, and only for those uses covered by the Certified Applicator's certification.

CYMBUSH OL Insecticide

For Use In Oil Only
Do Not Mix With Water

KEEP OUT OF REACH OF CHILDREN

D A N G E R

PELIGRO - PRECAUCION AL USAR: Si usted no le ingles, no use este producto hasta que le etiqueta le haya sido explicado ampliamente.

ACTIVE INGREDIENT:
Cypermethrin
to-cyano-(3-phenoxypyphenyl)methyl(·)-cis,
trans-3-(2,2-dichloroethenyl)-2,
2-dimethylcyclopropane-carboxylate*.

INERT INGREDIENTS.

TOTAL

*Cis/trans ratio: 45/55 · 10

CYMBUSH OL contains 3 pounds active ingredient per gallon.

STATEMENT OF PRACTICAL TREATMENT:

IF SWALLOWED: Do not induce vomiting. Call a physician immediately.

IF IN EYES: Immediately flush eyes with plenty of water for at least 15 minutes. Get medical attention.

IF ON SKIN: Immediately remove contaminated clothing and wash with plenty of soap and water. Get medical attention of irritation persists.

IF INHALED: Remove victim to fresh air. Apply artificial respiration if necessary.

NOTE TO PHYSICIAN: Inducing vomiting as first aid for this substance may result in increased risk of chemical pneumonitis or pulmonary edema caused by aspiration of the hydrocarbon solvent. Vomiting should be induced only under professional supervision.

FOR 24-HOUR EMERGENCY ASSISTANCE, CALL ICI AMERICAS MEDICAL EMERGENCY INFORMATION CENTER 1-800-472-8633.

ICI Agricultural Products

Wilmington, Delaware 19899
PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER

Corrosive. Causes eye burns and skin irritation. May be fatal if swallowed. Harmful if inhaled or absorbed through skin. May cause allergic skin reactions. Do not get in eyes, on skin or on clothing. Avoid breathing vapors or spray mist. Wash thoroughly after handling.

Wear protective clothing when spraying. Wear protective clothing, impermeable gloves, full face shield, rubber apron and boots when handling or mixing concentrate. When mixing/loading and spraying, wear mid-forearm to elbow length chemical-resistant gloves, boots or overshoes, one piece overall(s) which have long sleeves or long pants, and face shield or goggles. Mixers/loaders should in addition wear a chemical-resistant apron.

Any article of clothing worn while applying this product must be cleaned before reusing. Clothing which has been drenched or heavily contaminated should be disposed of in accordance with state or local regulations.

Instead of clothing and equipment specified above, the applicator can use an enclosed tractor cab with filtered air supply.

ENVIRONMENTAL HAZARDS: This pesticide is extremely toxic to fish. Use with care when applying in areas adjacent to any body of water. Do not apply directly to water. Do not apply when weather conditions favor drift from treated areas. Do not contaminate water by cleaning of equipment or disposal of wastes. This product is highly toxic to bees exposed to direct treatment or residues on crops or weeds. Do not apply CYMBUSH or allow it to drift to crops or weeds on which bees are actively foraging. Additional information may be obtained from your Cooperative Extension Service. Apply this product only as specified on this label.

In case of a significant spill, call CHEMTREC, 800/424-9300.

PHYSICAL OR CHEMICAL HAZARDS: Do not use or store near heat or open flame.
DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Apply CYMBUSH OI as indicated in the Supplemental Pamphlet. For all use directions, refer to the Supplemental Pamphlet.

CHEMIGATION: Refer to supplemental labeling entitled CYMBUSH OI Insecticide for use directions for chemigation. Do not apply this product through any irrigation system unless the supplemental labeling on chemigation is followed.

STORAGE AND DISPOSAL

PROHIBITIONS: Do not contaminate water, food or feed by storage or disposal. Open dumping is prohibited. Do not reuse empty container.

STORAGE: Keep container closed when not in use. Do not store near food or feed. Protect from freezing. In case of spill or leak on floor or paved surface, soak up with sand, earth or synthetic absorbent. Remove to chemical waste area.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsewater is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the hazardous waste representative of the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Metal Containers: Triple rinse (or equivalent). Then offer for recycling or reconditioning, puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

Plastic Containers: Triple rinse (or equivalent). Then offer for recycling or reconditioning, puncture and dispose of in a sanitary landfill, by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke. Glass Containers: Triple rinse (or equivalent). Then dispose of in a sanitary landfill or by other approved state and local procedures.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER

CORROSIVE. CAUSES EYE BURNS AND SKIN IRRITATION. MAY BE FATAL IF
SWALLOWED. HARMFUL IF INHALED OR ABSORBED THROUGH SKIN. MAY CAUSE ALLERGIC
SKIN REACTIONS. Do not get in eyes, on skin or on clothing. Avoid breathing
vapors or spray mist. Wash thoroughly after handling.

Wear protective clothing when spraying. Wear protective clothing,
impervious gloves, full face shield, rubber apron and boots when handling or
mixing concentrate. When mixing/loading and spraying, wear mid-forearm to
ebow length chemical-resistant gloves, boots or overshoes, one piece
overalls which have long sleeves or long pants, and face shield or goggles.
Mixers/loaders should in addition wear a chemical-resistant apron.

Any article of clothing worn while applying this product must be cleaned
before reusing. Clothing which has been drenched or heavily contaminated
should be disposed of in accordance with state or local regulations.

Instead of clothing and equipment specified above, the applicator can use an
enclosed tractor cab with filtered air supply.
STATEMENT OF PRACTICAL TREATMENT:

IF SWALLOWED: Do not induce vomiting. Call a physician immediately.

IF IN EYES: Immediately flush eyes with plenty of water for at least 15 minutes. Get medical attention.

IF ON SKIN: Immediately remove contaminated clothing and wash with plenty of soap and water. Get medical attention if irritation persists.

IF INHALED: Remove victim to fresh air. Apply artificial respiration if necessary.

NOTE TO PHYSICIAN: Inducing vomiting as first aid for this substance may result in increased risk of chemical pneumonia or pulmonary edema caused by aspiration of the hydrocarbon solvent. Vomiting should be induced only under professional supervision.

FOR 24-HOUR EMERGENCY ASSISTANCE, CALL ICI AMERICAS MEDICAL EMERGENCY INFORMATION CENTER 1-800-327-8643.

ENVIRONMENTAL HAZARDS: This pesticide is extremely toxic to fish. Use with care when applying in areas adjacent to any body of water. Do not apply directly to water. Do not apply when weather conditions favor drift from treated areas. Do not contaminate water by cleaning of equipment or disposal of waters. This product is highly toxic to bees exposed to direct treatment or residues on crops or weeds. Do not apply CYMBOUSH or allow it to drift to crops or weeds on which bees are actively foraging. Additional information may be obtained from your Cooperative Extension Service. Apply this product only as specified on this label.

In case of a significant spill, call CHINTREC, 600/424-9300.

PHYSICAL OR CHEMICAL HAZARDS: Do not use or store near heat or open flame.
DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Apply CYMBUSH OL as shown in the following chart, using sufficient spray to obtain full coverage of foliage. Apply every 5 to 7 days or as needed. Timing and frequency of applications should be based upon insect populations reaching locally determined economic thresholds. The use of less than recommended rates should only occur under conditions of light to moderate insect infestations.

RE-ENTRY STATEMENTS:

Do not treat areas while unprotected humans or domestic animals are present in the treatment areas.

Do not allow entry into treated areas without protective clothing until sprays have dried.

State re-entry regulations will apply if they are more restrictive than those stated on this label. Consult with State regulatory officials.

CLEANUP:

SPRINKLER IRRIGATION APPLICATION

Apply CYMBUSH OL at rates and timing described elsewhere in this label. Apply with center pivot or continuous-move equipment distributing ≤ 1 acre-inch or less during treatment. If stationary (solid sets, handlines or wheel lines other than continuous move) are used, CYMBUSH OL should be injected into no more than the last 20-30 minutes of the set. Do not apply when winds are greater than 10-15 mph to avoid drift or wind skips. Thorough coverage of foliage is required for good control. Good agitation should be maintained during the entire application period.

USE PRECAUTIONS - SPRINKLER IRRIGATION APPLICATION

A. Apply this product only through (sprinkler including center pivot, lateral move, end tow, side [wheel] roll, traveler, big gun, solid set, or hand move) irrigation system(s). Do not apply this product through any other type of irrigation system.

B. Crop injury, lack of effectiveness, or illegal pesticide residues in the crop can result from nonuniform distribution of treated water.
C. If you have any questions about calibration, you should contact State Extension Service special sts, equipment manufacturers or other experts.

D. Do not connect an irrigation system (including greenhouse systems) used for pesticide application to a public water system unless the pesticide label-prescribed safety devices for public water systems are in place.

E. A person knowledgeable of the chemigation system and responsible for its operation, or under the supervision of the responsible person, shall shut the system down and make necessary adjustments should the need arise.

F. The system must contain a functional check valve, vacuum relief valve, and low pressure drain appropriately located on the irrigation pipeline to prevent water source contamination from backflow.

G. The pesticide injection pipeline must contain a functional, automatic, quick-closing check valve to prevent the flow of fluid back toward the injection pump.

H. The pesticide injection pipeline must also contain a functional, normally closed, solenoid-operated valve located on the intake side of the injection pump and connected to the system interlock to prevent fluid from being withdrawn from the supply tank when the irrigation system is either automatically or manually shut down.

I. The system must contain functional interlocking controls to automatically shut off the pesticide injection pump when the water pump motor stops.

J. The irrigation line or water pump must include a functional pressure switch which will stop the water pump motor when the water pressure decreases to the point where pesticide distribution is adversely affected.

K. Systems must use a metering pump such as a positive displacement injection pump (e.g., diaphragm pump) effectively designed and constructed of materials that are compatible with pesticides and capable of being fitted with a system interlock.

L. Do not apply when wind speed favors drift beyond the area intended for treatment.

M. Do not apply through chemigation systems connected to public water systems.
POSTING REQUIREMENTS

Posting of areas to be chemigated is required when 1) any part of a treated area is within 300 feet of sensitive areas such as residential areas, labor camps, businesses, day care centers, hospitals, in-patient clinics, nursing homes or any public areas such as schools, parks, playgrounds, or other public facilities not including public roads, or 2) when the chemigated area is open to the public such as golf courses or retail greenhouses.

Posting must conform to the following requirements: Treated areas shall be posted with signs at all usual points of entry and along likely routes of approach from the listed sensitive areas. When there are no usual points of entry, signs must be posted in the corners of the treated areas and in any other location affording maximum visibility to sensitive areas. The printed side of the sign should face away from the treated area towards the sensitive area. The signs shall be printed in English. Signs must be posted prior to application and must remain posted until foliage has dried and soil surface water has disappeared. Signs may remain in place indefinitely as long as they are composed of materials to prevent deterioration and maintain legibility for the duration of the posting period.

All words shall consist of letters of at least 2½ inches tall, and all letters and the symbol shall be a color which sharply contrasts with the immediate background. At the top of the sign shall be the words KEEP OUT, followed by an octagonal stop sign symbol at least 8 inches in diameter containing the word SHUT. Below the symbol shall be the words PESTICIDES IN DILUTION WATER.

- Apply by air or ground. Use sufficient water to obtain full coverage of foliage. Do not apply more than 1.0 lb al per acre per season.

- In areas of the country where insects have a history of being highly susceptible to insecticides, available data indicate rates as low as 0.64 lb al/acre will control light infestations of bollworm, budworm, pink bollworm, cabbage looper, and light.

**NOTE:**
1. The use of rates lower than 0.64 lb al/A should be used only in conjunction with intense field monitoring.
2. Do not use less than 0.64 lb al/A on initial (first) application because of the variation in size and age of insects present.

- CYPHOSOL® may also be applied to all cotton with at least a once refined vegetable oil such as cottonseed oil or soybean oil. Apply using 1 quart of finished oil per acre.

- CYPHOSOL® may be applied in tank mixture with the following insecticides in accordance with label limitations and precautions. Total spray rate should not exceed:
  - Chlorpyrifos
  - Malathion
  - B. thuringiensis
  - Methoxyfenozide
  - Cyfluthrin

- Do not apply within 24 days of harvest. Do not graze livestock in treated areas.

* All is imperial.
** Registration pending in California for this mix use with CYPHOSOL®.

<tr>
<td>Pecans</td>
<td>Hickory Stockworm</td>
<td>0.06-0.12</td>
<td>Apply by ground equipment to the point of drift. The CYMBUSH OL rates are based on a standard of 160 gallons of dilute spray per acre for smaller trees. For larger trees which could require 200-300 gallons of spray per acre, apply at the rate of 0.06-0.12 lb at 200-300 gallons of water. In order to calculate the correct gallons of water needed to spray one acre of your trees to the point of drip, you may need to conduct a test. If you do not know how to conduct such a test with your equipment, you should request assistance from your equipment dealer.</td>

Do not apply more than 1.5 lb ai/A per season. Do not apply within 5 days of harvest. Do not plant rotational crops within 30 days of the last application.
STORAGE AND DISPOSAL

PROHIBITIONS: Do not contaminate water, food or feed by storage or disposal. Open dumping is prohibited. Do not reuse empty container.

STORAGE: Keep container closed when not in use. Do not store near food or feed. Protect from freezing. In case of spill or leak on floor or paved surfaces, soak up with sand, earth or synthetic absorbent. Remove to chemical waste area.

Pesticides Disposal: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinse water is a violation of Federal law. If these wastes cannot be disposed of in use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the hazardous waste representative of the nearest EPA Regional Office for Guidance.

CONTAINER DISPOSAL: Metal Container: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities. Plastic Containers: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke. Glass Containers: Triple rinse (or equivalent). Then dispose of in a sanitary landfill or by other approved state and local procedures.

NOTICE TO PURCHASER: Seller warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated on the label when used in accordance with directions under normal conditions of use. This warranty does not extend to the use of this product contrary to label instructions, or under abnormal use conditions, or under conditions not reasonably foreseeable to Seller, and Buyer and User assume the risk of any such use. Seller DISCLAIMS ALL OTHER WARRANTIES, EXPRESSED OR IMPLIED, UNDER ANY LAW OR IN ANY CIRCUMSTANCES. ALL SALES ARE MADE WITHOUT OTHER REPRESENTATIONS OR WARRANTIES, EITHER EXPRESS OR IMPLIED, AND PURCHASER AGREES TO INDEMNIFY AND HOLD HARMLESS NASHUA CORPORATION AGAINST ANY LOSS, DAMAGE OR LIABILITY IN CONNECTION WITH THE USE OF THIS MATERIAL.
