## **ZENECA** Professional Products

# Demon EC

Crack and crevice and spot spray for cockroach control. Only for sale to, use and storage by pest control operators.

#### **ACTIVE INGREDIENT:**

#### Cypermethrin

 $(\pm)\alpha$ -cyano-(3-phenoxyphenyl)methyl

(±)-cis, trans-3-(2,2-dichloroethenyl)-2,

TOTAL ......100.0%

\*Cis/trans ratio: 45/55 (±) 10

DEMON EC contains 2 pounds acrive ingredient per gallon.

EPA Reg. No. 10182-105 EPA Est. No. 10182-AR-1

KEEP OUT OF REACH OF CHILDREN WARNING

See additional Precautionary Statements and Statement of Practical Treatment.

Contents: 1 pint (0.47 L)

### ACCEPTED

019406Z

APR 25 1994

Under the Federal Inserticide, Fungicide, and Rodenticide Act as casended, for the probable registered under EPA Rec. No. 10/83-105

#### STORAGE AND DISPOSAL

PROHIBITIONS: Do not contaminate water, food or feed by storage or disposal. Open dumping is prohibited. Do not reuse empty container.

STORAGE: Keep container closed when not in use. Do not store near food or feed. Protect from freezing. In case of spill or leak on floor or paved surfaces, soak up with sand, earth or synthetic absorbent. Remove to chemical waste area.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative of the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Metal Containers: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities. Plaistic Containers: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke. Glassic Containers: Triple rinse (or equivalent). Then dispose of in a sanitary landfill or by other approved state and local procedures.

#### STATEMENT OF PRACTICAL TREATMENT

)

IF SWALLOWED: Do not induce vorniting. Call a physician or poison control center immediately.

IF IN EYES: Flush eyes with plenty of water. Call a physician if irritation persists.

IF ON SKIN: Wash with plenty of soap and water. Get medical attention if irritation persists.

IF INHALED: Remove victim to fresh air. If not breathing, give artificial respiration, preferably mouth-to-mouth. Get medical attention if breathing difficulty persists.

NOTE TO PHYSICIAN: Inducing vomiting as first aid for this substance may result in increased risk of chemical pneumonia or pulmonary edema caused by aspiration of the hydrocarbon solvent. Vomiting should be induced only under professional supervision.

FOR 24-HOUR EMERGENCY MEDICAL ASSISTANCE, CALL 1-800-F-A-S-T-M-E-D (327-8633) FOR CHEMICAL EMERGENCY: Spill, leak, fire, exposure, or accident Call CHEMTREC 1-600-424-9300

## PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS WARNING

MAY BE FATAL IF SWALLOWED. CAUSES EYE AND SKIN IRRITATION. HARMFUL IF ABSORBED THROUGH SKIN OR INHALED. MAY CAUSE ALLERGIC SKIN REACTIONS. Do not get in eyes, on skin or on clothing. Wear protective clothing when spraying. Wear protective clothing, impermeable gloves and full face shield or goggles when handling or mixing concentrate. Avoid breathing vapors or spray mist. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

#### **ENVIRONMENTAL HAZARDS**

This product is extremely toxic to fish. Do not contaminate water when disposing of equipment washwaters. Do not apply directly to any body of water. Apply this product only as specified on this label. Care should be used when spraying to avoid fish and reptile pets.

PHYSICAL AND CHEMICAL HAZARDS
Do not use or store near heat or open flame.

#### **DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

For residual pest control in and on buildings and structures and their immediate surroundings and on modes of transport. Permitted areas

2

of use include industrial buildings, houses, apartment buildings, laboratories, buses, greenhouses and the nonfood/feed areas of stores, warehouses, vessels, railcars, trucks, trailers, aircraft, schools, nursing homes, hospitals (non-patient areas), restaurants, hotels, and food manufacturing, processing and servicing establishments.

DEMON EC insecticide is intended for dilution with water for spray application.

Fill sprayer with the desired volume of water and add DEMON EC insecticide. Close and shake before use in order to insure proper mixing. Shake or reagitate sprayer before use if spraying is interrupted. Make up only as required; repeat treatments when needed.

Pests		Concentration of Active Ingredient	Dilution Rate
Ants Boxelder Bugs† Centipedes Chiggers**† Cockroaches (Maintenance) Crickets Earwigs† Elm Leaf Beetle†	Firebrats Fleas**† Flies* Millipedes Mosquitoes**† Pillbugs Sliverlish Sowbugs	0.1%	名fl. oz (1 thsp.) per 1 gal. water
Bées Cockroaches (Clean-out) Scorpions‡ Spiders	Ticks† Wasps Wood Infesting Beetles†	0.2%	1 fl. oz. (2 tbsp.) per 1 gal, water

<sup>\*</sup>Not for indoor use in California for fly control.

Cockroaches, Spiders, Crickets, Scorpions, Silverfish, Ticks and Firebrats: Apply as a coarse, low pressure spray to areas where these pests hide, such as baseboards, comers, storage areas, closets, around water pipes, doors and windows, attics and eaves, behind and under refrigerators, cabinets, sinks, furnaces, and stoves, the underside of shelves, drawers and similar areas. Pay particular attention to cracks and crevices; also see OUTDOOR USE.

Ants: Apply to any traits, around doors and windows and similar areas where ants may be found, Refer to barrier treatment directions to prevent infestation; also see OUTDOOR USE.

Wasps and Bees: Application to nests should be made late in evening when insects are at rest. Thoroughly spray nest and entrance and surrounding areas where insects alight; also see OUTDOOR USE.

Boxelder Bugs, Sowbugs, Pillbugs, Miltipedes, Elm Leaf Beetle and Centipedes: Apply around doors and windows and similar areas where these pests may be found or where they may enter premises. Spray baseboards, storage areas and other locations. Refer to barrier treatment directions to prevent infestation; also see OUTDOOR USE.

Flies: Apply directly to walls, ceilings, window screens, and other fly resting areas as a residual surface treatment. May be used inside residential buildings as well as in and around carports, garages, and storage sheds; also see OUTDOOR USE.

Scorpions: Treat and remove accumulations of lumber, firewood, and other materials which serve as harborage sites. Apply as a coarse spray to the point of drip; also see OUTDOOR USE.

Control of Wood Infesting Beetles: To control wood infesting insects such as powderpost beetle (Lyctidae), false powderpost beetles (Bostrichidae), deathwatch beetles (Anobiidae), old house borers (Cerambycidae) and ambrosia beetles (Scolytidae) in homes and other structures, apply as an emulsion containing 0.2% DEMON EC. For treatment of small areas, apply by brushing the emulsion evenly on wood surfaces. For large or overhead areas, apply as a coarse spray to the point of runoff. When spraying overhead interior areas of homes, apartment buildings, etc. spray to the point of runoff, cover all surfaces below the area being sprayed with plastic sheeting or other material which could be disposed of by placing in trash if contamination from dripping occurs. Sprayed surfaces should be avoided until spray has totally dried. Do not use in structures occupied by animals to be used for food purposes or which produce products for human consumption.

Food Handling Establishments: Places other than private residences in which food is held, processed, prepared or served:

Nonfood Areas: DEMON EC insecticide may be used as a general, spot or crack and crevice treatment in nonfood areas. Similar areas where insects hide or through which insects may enter should be treated. Examples of nonfood areas include garbage rooms, lavatories, floor drains (to sewers), entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage (after canning or bottling).

Food Areas: DEMON EC is not labeled for use in food areas. Do not use in food areas of food handling establishments, restaurants or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed or facility is in operation. Serving areas are areas where prepared foods are served such as dining rooms but excluding areas where foods may

3

4

<sup>\*\*</sup>Outdoor use only.

<sup>†</sup>Not approved for use in California.

be prepared or held. In the home all food processing surfaces and utensits should be covered during treatment or thoroughly washed before use. Exposed food should be covered or removed. Examples of food areas are areas for receiving, storage, packing (canning, bottling, wrapping, boxing), preparing, edible waste storage and enclosed processing systems (mills, dairies, edible oils, syrups). Serving areas (when food is exposed and facility is in operation) also would be considered a food area.

Outdoor Use: For control of ants, bees, centipedes, cockroaches, crickets, earwigs, fleas, millipedes, mosquitoes, scorpions, sowbugs, pillbugs, spiders, ticks, flies and wasps. Apply as a residual spray to surfaces of buildings, porches, screens, window frames, eaves, patios, tawns, refuse dumps, garages by either hand or power sprayer and in similar areas where these pests are found.

Barrier Treatment (except cockroaches): To help prevent infestation of buildings, apply to a band of soil and vegetation 6 to 10 feet wide around and adjacent to the building. Also, treat the building foundation to a height of 2 to 3 feet where pests are active and may find entrance. Apply as a coarse spray to thoroughly and uniformly wet the band area, using 1 gallon of spray mix per 400 square feet.

Treatment of Preconstruction Lumber and Logs†

To protect unseasoned lumber and logs from wood destroying insects, such as Termites, Carpenter Ants and Beetles (Ambrosia, Powder-post, Old house borers and others), totally treat wood with a 0.25% to 0.5% solution of DEMON EC. This solution can be applied by various methods including spraying, brushing, dipping, and pressure treatment. Frequent monitoring of dip and pressure systems are necessary to insure that the desired level of DEMON EC is maintained. Wood can be handled after treatment when dry.

- 1 For dip treatments, the wood should be totally submersed in the solution until thoroughly wet and then allowed to dry in a suitable location. Dipping solutions to which DEMON EC has been added should be agitated before use if left unused for long periods of time. Sediment, debris and other deposits should be periodically cleaned from the tank.
- 2 For pressure treatments, the wood should be placed in the treatment chamber, the DEMON EC solution added and the system pressurized up to 250 psi for up to one hour depending on the density and type of wood treated. After the pressure is released and the system drained, the wood should be placed in a suitable location for drying.

tNot approved for use in California

- For spray treatments, the wood should be sprayed thoroughly including back and ends.
- For brush treatments, all parts of wood surfaces should be thoroughly treated.

Note: Do not use water base sprays of DEMON EC in conduits, motor housings, junction boxes, switch boxes, or other electrical equipment because of possible shock hazard. Let surfaces dry before allowing children and pets to contact surfaces. Protect aquariums from spray mist. Thoroughly wash out sprayer and screen with water and detergent before using DEMON EC insecticide. Do not use this product with oil.

Do not apply this product to edible crops.

Ouring any application to overhead interior areas of structure, cover surface below with plastic shielding or similar material.

Do not use as a space spray.

Use only in well ventilated areas.

Do not apply in patient rooms while occupied or in any rooms while occupied by the elderly or infirm.

Do not apply to classrooms when in use.

Do not apply to institutions (including libraries, sports facilities, etc.) in the immediate area when occupants are present.

Do not use in warehouses where raw or cured tobacco is stored.

De not use in warehouses while raw agricultural commodities for food or feed are being stored.

Do not use in greenhouses where crops for food or feed are grown.
