- A final report is due in April 1989.

In both oral and dermal studies, you are required to submit results with information on electrolytes, including magnesium.

2. The following labeling revisions must be made before the product may be release for shipment:

"Do not rotate to crops other than corn."

3. Submit product information (pounds or gallons produced) for this product for the fiscal year in which the use on corn is conditionally registered, in accordance with FIFRA section 29. The fiscal year begins October 1, and ends September 30. The product information will be submitted to the Agency no later than November 15, following the end of the preceding year.

This information is to be submitted to:

Registration Support Branch Registration Division (TS-767C) Environmental Protection Agency 401 M Street SW Washington, DC 26460

You should note that if you fail to satisfy any of the conditions imposed on this registration, e.g., you fail to submit the required data by the specified deadlines or the data submitted were not generated in accordance with the applicable test Guidelines, EPA may issue a Notice to Cancel this use under FIFRA section 6(e).

You should note that, regardless of whether you satisfy all applicable conditions, this conditional registration will expire automatically on July 31, 1993. Sale and distribution of the subject product bearing labeling for use on corn after July 31, 1993 will be illegal. The tolerance authorizing residues of the subject product on corn will also expire automatically on July 31, 1994.

After that date, sale or distribution of room interstate conserve contaming any residues of the subject product will be a violation of the Tederal Food, Drug, and Communic Act.

4. Simultaneous Reporting to the Office of Compliance Monitoring (UCA)

OCH will be monitoring the data being generated in response to this Registration Motion. Therefore, if you respond by:

- Committing to develop and/or submitting data;
- Requesting a minor chemical exemption;
- Presenting arguments that a requirement is not applicable;
- Submitting protocols or modifications to them; or
- Requesting extensions in the due date for submitting final reports,

you must send a copy of the supporting information (not copies of the actual data) to:

Laboratory Data Integrity Assurance Division Office of Compliance Monitoring (FN-342) Invironmental Protection Agency 401 M Street SW Washington, EC 20460.

Finally, once the required data have been submitted and evaluated, IPA will entertain an application to amend the registration of the subject product to allow the unconditional use on corn without any special restriction on the duration of the registration.

A stamped copy of the labeling is enclosed for your records.

George T. LaRocca Product Manager (15) Insecticide—Rodenticide Branch Registration Division
