SUPPLEMENTAL LABEL FOR USE ON LENTILS*

GRAMOXONE® EXTRA Herbicide

EPA Reg. No. 10182-280

DIRECTIONS FOR USE

It is a violation of Federal law and may endanger the applicator or third parties to use this product without complying with all label directions and warnings.

SPECIFIC USE RECOMMENDATIONS

Crop	Use Pattern	GRAMOXONE EXTRA Rate Per Acre	Minimum Total Spray Per Acre	Grazing or Preharvest Interval (Days)	Precautions, Restrictions and Comments
<u>LENTILS</u>	Harvest Aid	1 - 1½ pints	Ground: 20 gal Air: 5 gal	7	<ul style="list-style-type: none"> • Add nonionic surfactant at 0.25% v/v (2 pints per 100 gallons) of the finished spray volume. • May also be applied as a split application. DO NOT make more than 2 applications or exceed a total of 1½ pints per acre. The split application may improve coverage. • Apply when crop is mature and at least 80% of the pods are yellowing and mostly ripe with no more than 30% of the leaves still green in color. • DO NOT apply when weather conditions favor spray drift. A drift control agent may be included to reduce spray drift (see drift minimization section on label). • NOT REGISTERED FOR USE ON LENTILS IN CALIFORNIA.

*Not registered for use in California

Refer to back for additional information.

All applicable directions, restrictions and precautions on the EPA-registered label are to be followed.

This labeling must be in the possession of the user at the time of pesticide application.
