

HAVILAND'S B-5-S

For cleaning and sanitizing feed hoppers, water founts, walls, floors, and equipment of egg handling rooms.

Dissolve 2 tablespoons full of Haviland's B-5-S Egg Cleaner powder in 2 gallons of water of high temperature. Wash feed hoppers, water founts, and other equipment thoroughly.

Hatcheries use Haviland's B-5-S Egg Cleaner for cleaning incubators, hatchers, trays, and other equipment.

DIRECTIONS FOR EGG WASHING (For "Modern Egg Washer" Machines)

1. Dissolve 1 to 2 tablespoons of Haviland's B-5-S Egg Cleaner powder to 2 gallons of water of 110-120°F. (Important: Maintain wash water at even temperature). Amount of the powder needed will depend on dirtiness of eggs as well as hardness of water. (Use pure drinking water for egg washing as well as rinsing of eggs).
2. Agitate eggs ONLY until they are clean. 3 to 5 minutes generally is all that is necessary. Remove eggs just as soon as they are clean.
3. Rinse eggs in water slightly WARMER than the wash water. For rinse water use the powder in ratio of 2 tablespoons to 5 gallons water.
4. Dry eggs rapidly and store in cool room. Pack only in un-used clean containers.

IMPORTANT: Do NOT wash more than 5 dozen eggs per gallon of solution. Change wash solution more often if it becomes dirty. Dirty wash water contains bacteria laden water and you will defeat your purpose by using dirty wash water even though it continues to clean the eggs.

HAVILAND'S B-5-S

EGG CLEANER

A DETERGENT SANITIZER

Ingredients:

Active:

Methyl dodecyl benzyl trimethyl ammonium chloride	4.0%
Methyl dodecyl xylylene bis (trimethyl ammonium chloride)	1.0%
Sodium Metasilicate, pentahydrate	20.0%
Sodium Carbonate	40.0%

Inert:

Including compatible detergents	35.0%
	<hr/>
	100.0%

A superior detergent and sanitizer for washing soiled eggs. Most advanced ingredients to brighten eggs and reduce spoilage of fresh and storage eggs caused by bacterial contamination. Also excellent sanitizing detergent for feed hoppers, water founts, poultry house equipment, and egg handling rooms.

CAUTION

KEEP OUT OF THE REACH OF CHILDREN. Harmful, if swallowed. May cause burns or damage to the eyes. Do not get on skin or in eyes. If contact with eyes occurs, flush with plenty of water for 15 minutes and obtain medical attention. If contact with skin occurs, flush with water. Avoid contamination of food.
