

# winterizer

## for swimming pools

**CAUTION** KEEP OUT OF THE REACH OF CHILDREN

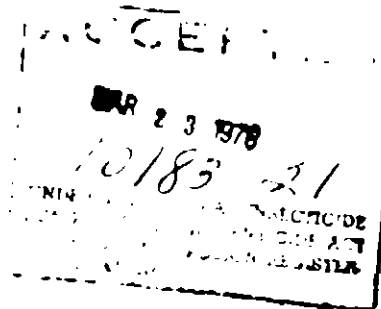

See additional cautions on back panel

**Active ingredient:**

For, (or) ethylene (dimethylamino) ethylene-	100 percent
(dimethylamino) ethylene dichloride	90.0 percent
Inert ingredient	9.0 percent
<b>Total</b>	<b>100.0 percent</b>

(This product contains 0.85 lb. of active ingredient per gallon and weighs 8.5 lb. per gallon.)

NET CONTENTS 1 GAL.

**PRECAUTIONARY STATEMENTS-HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**CAUTION:** Harmful if swallowed. Avoid breathing vapors. Avoid contact with skin, eyes, or clothing.  
**FIRST AID:** If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution, or, if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.  
**ENVIRONMENTAL HAZARDS:** This pesticide is toxic to fish. Keep out of lakes, streams, or ponds. Permits may be required for discharges containing this pesticide into lakes, streams, ponds or public water. For guidance, contact the regional office of the Environmental Protection Agency.

**DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

WINTERIZER algaecide will prevent growth of most algae during the off-season winter months when pools are not in use. For pools which have been properly treated during the swimming season and are free of visible algae, add 41 to 65 fluid ounces of algaecide per 10,000 gallons of water. If at the end of swimming season pools have some visible algae growth, add 75 to 117 fluid ounces per 10,000 gallons. It is necessary that a uniform distribution of algaecide throughout the water and the pool be made for maximum effectiveness. If pool is not covered, it may be necessary to repeat the treatment one or more times during the season.

WINTERIZER is compatible with those chemicals normally used to treat pools and effective at both acid and alkaline pH. WINTERIZER can be used in pools treated with chlorine chemicals and may reduce the amount of those chemicals normally required. However, do not mix WINTERIZER with concentrated dry or liquid chlorine products.

**STORAGE & DISPOSAL:** Keep container closed when not in use. Do not contaminate water, food, or feed by storage, disposal, or cleaning of equipment. Do not reuse empty container. Triple rinse (or equivalent) and dispose of container in an incinerator or in an approved landfill, or bury in a safe place. Residue that cannot be used or reprocessed should be disposed of in a landfill approved for pesticides or buried in a safe place away from water supplies. Open dumping is prohibited.
