COMBAT is compatible with the usual water treatmattit openicals. By controlling algae growth with COMBAT, the chlorine demand or the poor may be significantly reduced.

DIRECTIONS FOR USE: COMBAT is used to control the growth of algae in swimming pools. For maximum effectiveness, pools containing heavy growth of algae should be cleaned prior to using COMBAT.

For pools having just visible algae growth add an integral dose of \$44-to.21 ft. of. of COMBAT per 10,000 gal, of water and remove settled algae debris by cleaning. For treatment of a freshly cleaned and filled pool, add initially 8 to 14 tl. oz. of COMBAT per 10,000 gal, of water.

To maintain pools free of visible algae growth, subsequent additions of 2.5 to 5 fl. oz. of COMBAT per 10,000 gal, of water should be made every 5 to 7 days after the initial treatment.

Uniform distribution of COMBAT throughout the water in the pool is necessary for maximum effectiveness.

COMBAT is compatible with those chemicals normally used to treat pools and is effective at both acid and alkaline pH. COMBAT can be used in pools treated with chlorine chemicals and may reduce the amount of those chemicals normally required. However, do not mix COMBAT with concentrated dry or liquid chlorine products.

Apply this product only as specified on this label.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAÜTION: Keep Out of Reach of Children, Harmful if swallowed. Do not get in eyes. Avoid contact with skin. Avoid contamination of food.

FIRST AID: If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution, or, if these are not available, drink large quantities of water, Avoid alcohol. Call a physician immediately.

STORAGE AND DISPOSAL: Rinse empty container thoroughly with water and discard container. Do not reuse empty container. Destroy it by perforating of crushing. Bury or discard in a safe place away from water supplies.

ENVIRONMENTAL HAZARDS: this product is toxic to fish. Treated **effluent should** not be discharged where it will drain into lakes, streams, ponds, **or public water.**
