COMBAT the chlorine demand of the pool may be significantly increased. COMBAT is used to control the growth of algae in swimming pools. In heavily algae pools containing heavy growth of algae, add 1 quart of COMBAT. In pools with moderate algae growth add an initial dose of 4 to 2 fl. oz. of COMBAT per 100 gal. of water and remove settled algae debris by cleaning. In a freshly cleaned and filled pool, add initially 8 to 14 fl. oz. of COMBAT per 100 gal. of water. To control moderate algae growth, subsequent additions of 2.5 to 5 fl. oz. of COMBAT per 100 gal. of water should be made every 5 to 7 days after the initial dose.

COMBAT should be maintained throughout the water in the pool is necessary for the best results.

COMBAT is compatible with most chemicals normally used to treat pools and is effective in raising and maintaining pH. COMBAT can be used in pools treated with chlorine and may reduce the amount of those chemicals normally required. COMBAT with concentrated dry or liquid chlorine products.

See the following directions on this label.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Keep Out of Reach of Children. Harmful if swallowed. Do not get in eyes. Irritates skin. Avoid contamination of food.

If swallowed, drink promptly a large quantity of milk, egg whites, gelatin, or other substances. If not available, drink large quantities of water. Avoid alcohol. Seek medical attention immediately.

USE AND DISPOSAL: Rinse empty container thoroughly with water and reuse. Do not reuse empty container. Destroy it by perforating or shredding and discard in a safe place away from water supplies.

ENVIRONMENTAL HAZARDS: This product is toxic to fish. Treated effluent should not be discharged where it will drain into lakes, streams, ponds, or public water.
