Haviland Products Company
421 Ann Street SW.
Grand Rapids, MI 49504

Attention: Donald J. Ryan
Safety Director

Gentlemen:

Subject: Haviland 3" Tablets
EPA Registration No. 10183-28
Your Application Dated February 7, 1989

This is in response to your request to amend the registration of the subject product to include a formula change and labeling revisions.

The change in formulation to replace Sterotex with Boric acid is acceptable.

The revised Confidential Statement of Formula satisfactorily fulfills our requirements in regard to this revised formulation.

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, is acceptable provided that you:

1. Make the following revisions before you release the product for shipment bearing the amended labeling.
 - a. Revise the disposal statement "Place in a trash collection or dispose in an approved landfill area" to read "Securely wrap container in several layers of newspaper and discard in trash."
 - b. Note that the ~~storage statement should be preceded by a~~ "Storage" heading and the disposal statements by a "Disposal" heading. (Refer to "The Label" enclosure.)

57196:I:Douglas:K-5:KEMCO:4/21/89:5/3/89:AS:vo:ek:rw

CONCURRENCES

SYMBOL	SURNAME	DATE					

- c. In the ingestion statement, we recommend that you delete "of milk."
 - d. Place "Keep Out of Reach of Children" immediately above the signal word DANGER (front panel).
2. Submit the final printed labeling for inclusion in the product file.

Your release for shipment of the product bearing the amended labeling constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely yours,

Jeff Kempter
Products Manager (32)
Antimicrobial Program Branch
Registration Division (H7505C)

HAVILAND PRODUCTS

DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner not specified on the label. FOR CONTROL OF BACTERIA AND ALGAE (OUTDOOR USE ONLY) CONTINUOUSLY

1. Before bathing, test water pH, chlorine residual and chlorine residual to 1-2 ppm. Use a chlorine stabilizer residual. Maintain pH of water between 7.2 and 7.6 and chlorine residual to 1-2 ppm.
2. Place tablets in skimmer basket or suitable tablet feeder. Make necessary adjustments on tablet feeder to maintain proper dosage. Do not place any other chemical with this product in the skimmer basket.
3. Weekly superchlorinate water 5 to 6 ppm using a chlorine shocker. Follow directions on the product label for proper dosage. Avoid swimming during superchlorination.

STORAGE AND DISPOSAL:

Keep product dry in tight closed container when not in use. Keep away from heat or flame. Do not reuse empty container. Rinse and dissolve all material before discarding. Place in a trash container. **IN CASE OF CONTAMINATION OR DECOMPOSITION:** Empty container in open air or well ventilated area. Flood with water. Dispose of contaminated material in an approved landfill.

PRECAUTIONARY STATEMENTS

HAZARD TO HUMANS

AND DOMESTIC ANIMALS:

DANGER Highly corrosive. Causes skin and eye damage. Causes severe skin burns and eye damage. Wear goggles or face shield, rubber gloves, and protective clothing. Irritating to nose and throat. Avoid breathing dust. Wash clothing before reuse.

ENVIRONMENTAL HAZARDS:

This product is toxic to fish. Do not discharge into lakes, streams, or rivers. For guidance contact your local health department in accordance with an NPDES Permit. For guidance contact your local health department.

PHYSICAL AND CHEMICAL HAZARDS:

STRONG OXIDIZING AGENT:

Use only clean, dry utensils. Mix only with water. Do not mix with other chemicals. Contamination of other chemicals (including pool chemicals) may start a chemical reaction, generate heat, and possible generation of fire and explosion. Do not burn. Do not use near burning material, such as a lighted cigarette.

FIRST AID (PRACTICAL TREATMENT):

- If swallowed: Feed large amounts of milk and/or water. Do not induce vomiting.
- If on skin: Brush off excess chemical and flush skin with water. If irritation persists, get medical attention.
- If in eyes: Flush with cold water for at least 15 minutes. Get medical attention.
- If inhaled: Remove person to fresh air. Get immediate medical attention.
