

SDA Reg. No.

POLYESTER MARINE SHIELD

**MAY CAUSE SEVERE EYE BURNS.
MAY BE FATAL IF SWALLOWED.
MAY CAUSE SKIN IRRITATION.**

Do not get in eyes, on skin, or on clothing.

Wear safety glasses.

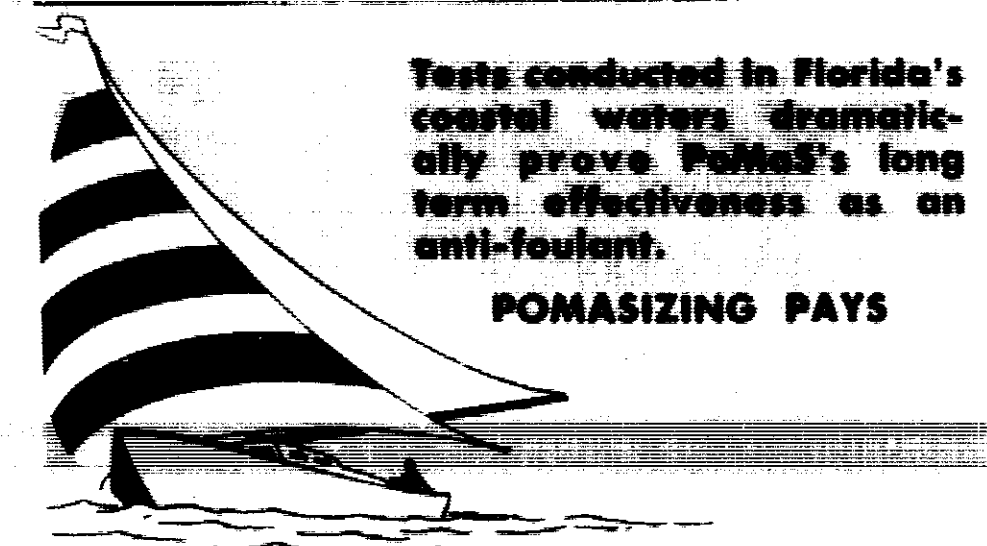

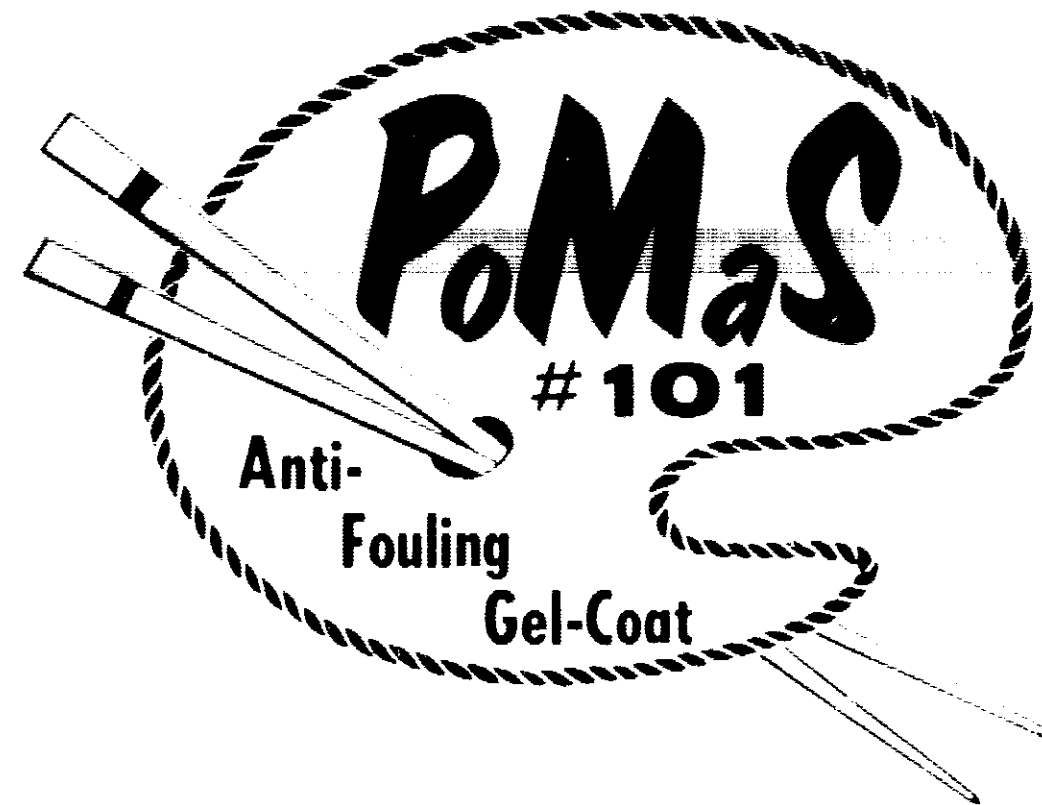

Avoid exposure to vapor or spray mist.

Avoid storage near food and feed products.

Keep away from heat and open flame.

Use with adequate ventilation.

In case of contact immediately flush eyes with plenty of water for at least fifteen minutes and get prompt medical attention; wash skin with plenty of soap and water. Wash contaminated clothing before re-use.

Tests conducted in Florida's coastal waters dramatically prove PoMaS's long term effectiveness as an anti-foulant.

DIRECTIONS FOR USE

This material has been scientifically formulated and supersensitized to yield the ultimate properties for gel coat application. It can be brushed or sprayed at its manufactured viscosity but may be cut with styrene monomer if desired. Under temperatures at 70°F. the gel time is 15-20 minutes using 1% MMA catalyst. This material has been pre-accelerated and additional promoter should normally not be used. Normal storage life is 3 months. See label for details.

Boat manufacturers using molded polymers make PoMaS #101 an integral part of the hull by applying it during their molding operation.

PoMaS #101 contains Biomet for salt and fresh water, retards marine organisms such as: algae, barnacles, tunicates, hydroids, and tube worms.

ACTIVE INGREDIENT:

| | |
|-------------------------|-------------|
| TRI-N-BUTYLTIN FLUORIDE | 20% |
| INERT INGREDIENTS | 80% |
| TOTAL | 100% |

**WARNING:
KEEP OUT OF REACH OF CHILDREN
SEE LEFT PANEL FOR OTHER WARNINGS**
