GERMICIDAL CLEANER

E.P.A. Reg. No. 10190-3

CLEANS • DISINFECTS • DEODORIZES • SANITIZES

- CLEANS AS IT SANITIZES WALLS, FLOORS, EQUIPMENT, FIXTURES
- VERY ECONOMICAL A LITTLE DOES A LOT
- CLEANS FAST RINSES FREELY

CLEANLINESS CONCEPT

PC-6 a new development from the Penetone Research Laboratories combines, in a single product, effective disinfecting properties with powerful multi-purpose cleaning action. Combining specially formulated synthetic detergents with a powerful broad-spectrum germicide, PC-6 actually cleans and sanitizes in one operation. It will not harm most hard surfaces and can be used in many areas. PC-6 has been proven effective and economical.

GERMICIDAL POWER

PC-6 has six times the killing power of phenol when tested against Salmonella typhosa at 20°C. in the A.O.A.C. Phenol Coefficient Method. It destroys odor producing bacteria.....makes it possible to clean less frequently.

CLEANING ABILITY

Maintenance men are usually surprised at the fast, complete cleaning ability of this highly effective liquid synthetic detergent. PC-6 quickly dissolves dirt, scum and old soap curds left by less efficient soaps and detergents... ..restores tile, wood, plastic, concrete and other washable surfaces to their original beauty. Best of all, PC-6 maintains its cleaning ability in the hardest water, hot or cold, and rinses completely for film-free cleaning.

DEODORIZES, TOO

PC-6 destroys odors.....doesn't merely mask them over temporarily. PC-6 has a fresh, clean, outdoorsy smell you'll like.

HOW TO USE PC-6
