PENETIZE is an industrial cleaner which disinfects as it cleans. It is especially designed for schools, institutions, and industry. A single application removes dirt and grime, disinfects and is virucidal. When used as directed, the hard surface disinfecting action of PENETIZE will reduce the hazard of cross-infection.

PENETIZE is an extremely effective one-step sanitizer. It cleans and sanitizes in waters up to 1000 ppm hardness. This hard water tolerance is in excess of most potable waters and will insure complete sanitizing action when used as directed.

When used as directed, PENETIZE will deodorize toilet areas, behind and under sinks and counters, garbage cans and garbage storage areas, and other places where bacterial growth can cause mal odors.

### WARNING:

KEEP OUT OF REACH OF CHILDREN.

Causes eye and skin irritation.

Avoid contamination of food. Harmful if swallowed.

Avoid getting product in the eyes. In case of contact, flush copiously with water and seek medical attention.

Avoid getting product on the skin. In case of contact, flush copiously with water immediately to avoid possible skin irritation.

### USE DIRECTIONS

Add two ounces per gallon water.

Apply PENETIZE to walls, floors, and other hard surfaces such as tables, chairs and bed frames with a cloth or mop.

At two ounces per gallon use-level, PENETIZE is effective against Staphylococcus aureus, Salmonella choleraesuis, Escherichia coli, and Trichophyton interdigitale, the athlete's foot fungus. Germicidal performance against the first three organisms has been confirmed by the AOAC Use-Dilution Test. Fungicidal performance against T. interdigitale was determined by the AOAC Fungicidal Test.

\*At two ounces per gallon use-level, PENETIZE is virucidal against Herpes Simplex (a member of the virus family that causes infectious mononucleosis), Vaccinia (representative of the pox viruses), and Influenza A2 as represented by the strains commonly called the Hong Kong Flu and the London Flu Virus, on inanimate environmental surfaces.

Note: This product is not effective against Ps. aeruginosa at this use-level.

For sanitizing add one ounce per gallon of water.

Use PENETIZE for sanitizing and cleaning utensils, equipment, and other hard surfaces. When sanitizing food processing equipment and utensils and food contact surfaces, rinse thoroughly with potable water.

Do not reuse empty container. Rinse thoroughly with water before discarding or returning to drum reconitioner.
