# PENETIZE®

## Cleaner - Disinfectant - Deodorizer - Fungicide - Virucide\*

PENETIZE is an industrial cleaner which disinfects as it cleans. It is especially designed for schools, institutions and industry. A single application removes dirt and grime, disinfects and is virucidal. When used as directed, the hard surface disinfecting action of PENETIZE will reduce the hazard of cross-infection.

PENETIZE is an extremely effective one-step sanitizer. It cleans and sanitizes in waters up to 1000 ppm hardness. This hard water tolerance is in excess of most potable waters and will insure complete sanitizing action when used as directed.

When used as directed, PENETIZE will deodorize toilet areas, behind and under sinks and counters, garbage cans and garbage storage areas, and other places where bacterial growth can cause mal odors.

### USE DIRECTIONS:

Add two ounces per gallon of water.

Apply PENETIZE to walls, floors and other hard surfaces such as tables, chairs and bed frames with a cloth or mop.

At two ounces per gallon use-level, PENETIZE is effective against Staphylococcus aureus, Salmonella choleraesuis, Escherichia coli and Trichophyton interdigitale, the athlete's foot fungus. Germicidal performance against the first three organisms has been confirmed by the AOAC Use-Dilution Test. Fungicidal performance against T. interdigitale was determined by the AOAC Fungicidal Test.

(continued on right panel.)

EPA Est. 10190-NJ-01

### AOAC PHENOL COEFFICIENTS

Staph, aureus (ATCC No. 6538) . . . . . 50  
Salmonella typhosa (ATCC No. 6539) . . . . . 20

### ACTIVE INGREDIENTS

Didecyl dimethyl ammonium chloride . . . . 2.5%  
~~Tetrasodium ethylenediamine~~  
~~tetraacetate~~ . . . . . 2.0%  
~~Sodium carbonate~~ . . . . . 1.5%

INERT INGREDIENTS . . . . . 97.5%  
Total 100.0%

EPA Reg. No. 10190-13

### WARNING:

**KEEP OUT OF REACH OF CHILDREN.**  
Causes eye and skin irritation. Avoid contamination of food. Harmful if swallowed. Avoid getting product in the eyes. In case of contact, flush copiously with water and seek medical attention. Avoid getting product on the skin. In case of contact, flush copiously with water immediately to avoid possible skin irritation.

NET CONTENTS:

\*At two ounces per gallon use-level, PENETIZE is virucidal against Herpes Simplex (a member of the virus family that causes infectious mononucleosis, Vaccinia (representative of the pox viruses), and Influenza A2 as represented by the strains commonly called the Hong Kong Flu and the London Flu Virus, on inanimate environmental surfaces.

Note: This product is not effective against Ps. aeruginosa at this use-level.

For sanitizing add one ounce per gallon of water.

Use PENETIZE for sanitizing and cleaning utensils, equipment and other hard surfaces. When sanitizing food processing equipment and utensils and food contact surfaces, rinse thoroughly with potable water.

### STORAGE & DISPOSAL

**STORAGE:** Keep container closed when not in use. Do not store below 32° or above 100° F.

**DISPOSAL:** Do not contaminate water, food or feed by storage or disposal, or cleaning of equipment. In case of spill, flood area with water, washing to sewer or pick up and store in collection vessel. Wastes resulting from use of this product may be disposed of on site or at any approved waste disposal facility. Triple rinse empty container. Then offer for recycling or reconditioning or puncture and dispose of in a sanitary landfill. Plastic containers may be incinerated or if allowed by local authorities, by burning. If burned, stay out of smoke.

FORMULA II  
TREE GUARD SPRAY

FOR USE ONLY WITH RAID TREE GUARD BAND

- o Unique RAID TREE GUARD SYSTEM kills and helps control gypsy moth caterpillars-even on big trees.
- o Combine RAID TREE GUARD SPRAY with RAID TREE GUARD BAND to form a killing barrier-caterpillars cross and die.
- o You control the killing action by re-treating with RAID TREE GUARD SPRAY as needed.

Not Reviewed. Registrant claims to be in accordance with  
Reregistration of Pesticide Product Guidance for Phase 2  
Response, Page 2.12, Active to Inert Change in Status.

o Foam tracer shows where you have sprayed - helps you apply the right amount.

**PRECAUTIONARY STATEMENTS  
HAZARD TO HUMANS  
CAUTION**

**CAUTION:** May be harmful if swallowed. Avoid contact with skin, eyes and clothing. Avoid breathing vapors or spray mist. Wash hands thoroughly with soap and water after use and before eating or smoking. Keep away from food, feedstuffs, and domestic water supplies. Do not allow children or pets in treated areas until dry. **NOTE TO PHYSICIAN:** This product is a cholinesterase inhibitor. Atropine is antidotal and should be administered by injection only after symptoms appear.

**STATEMENT OF PRACTICAL TREATMENT**

**IF SWALLOWED:** Drink one or two glasses of water and induce vomiting by touching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person. Get medical attention immediately. **IF ON SKIN:** Wash promptly with soap and water. Rinse thoroughly. **IF IN EYES:** Rinse eyes with water and call a physician immediately.

**ENVIRONMENTAL HAZARDS:** This product is toxic to fish, birds and other wildlife. Do not apply directly to water. Do not apply when weather conditions favor drift from areas treated. Do not apply where runoff is likely to occur. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

**PHYSICAL CHEMICAL HAZARDS:** Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 120 degrees F. may cause bursting.

**DIRECTION FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

**SHAKE BEFORE USING**

**TO KILL GYPSY MOTH CATERPILLARS:** When trees begin to show leaves in Spring, or when caterpillars are first observed, place RAID TREE GUARD BAND around tree, approximately 5-6 feet above ground level. Spray exposed surface of band completely and evenly all the way around tree with RAID TREE GUARD SPRAY. Do not apply spray directly on tree. Reapply every 7 days or as necessary. Reapplication after heavy rainfall is recommended. Continue treatments as long as caterpillars are present.

**TO AID IN PREVENTING REINFESTATION OF TREES:** Use RAID TREE GUARD SYSTEM following the above directions.

**HOW RAID TREE GUARD SYSTEM WORKS:** Gypsy moth caterpillars cause major damage by feeding on tree leaves. Raid Tree Guard System helps control these caterpillars as they migrate up and down tree trunks daily in search of food.
