

Markopine

PINE OIL DISINFECTANT

Phenol Coef. 5 — AOAC Method 20°C

Made with pure steam distilled pine oil and emulsifying agents. This disinfectant forms an immediate, stable milk white emulsion, with combined germicidal, deodorizing and cleaning action. Follow directions.

ACTIVE INGREDIENTS:

Steam Distilled Pine Oil.....	80%
*Soap.....	10%

INERT INGREDIENTS:

Water.....	10%
Total Ingredients.....	100%

*Emulsifier

DIRECTIONS: For maximum efficiency, clean surface well before applying disinfectant solution. Put disinfectant in a pail, adding water and stirring. Use warm water when possible. For general disinfecting, apply a solution of 1 part PINE OIL DISINFECTANT to 80 parts water.

URINALS AND TOILETS: To be cleaned daily with a solution of 1 to 80.

KENNELS-STABLES-CHICKEN HOUSES, ETC.: Clean thoroughly and remove all deposits with a solution of 1 to 100. Either mop or spray entire area with fresh solution.

CUSPIDORS-HARD SURFACE AREAS: To be mopped with a 1 to 80 solution. Leave a small amount in sputum receptacles.

GENERAL CLEANING: PINE OIL Disinfectant has an exceptional cleaning action. One teacup to a pail of water not only cleans but deodorizes.

CAUTION: DO NOT TAKE INTERNALLY. KEEP OUT OF REACH OF CHILDREN.

ANTIDOTE: Give milk, white of raw eggs, mucilage or corn-starch paste and follow with an emetic such as a tablespoon of mustard in a glass of warm water. Call a physician. Avoid prolonged or repeated contact with skin. Wash thoroughly.
