

FLIX NON-FLAMMABLE

FLIX repels gnats and flies and kills ticks and fleas that infest the animal's hair, kennel and sleeping quarters. Ticks are tough — spray directly.

WARNING

Contents under pressure. Do not puncture. Do not use or store near heat or open flame. Exposure to temperature above 130 F may cause bursting. Never throw container into fire or incinerator.

Keep out of reach of children. Avoid contact with skin. Avoid breathing of spray. Wash hands after use. Do not use near birds, fish or food stuffs. Do not use on puppies under 6 weeks old.

DIRECTIONS: SHAKE WELL BEFORE EACH USE

Remove protective cover. Point valve opening at area to be treated and press button to release spray. Hold can about 12 inches from animal's body and spray in short bursts. Start spraying at the tail, moving up to the back of the neck and include the legs and underbody.

While spraying, ruffle the hair so the spray will penetrate. Keep spray moving constantly and spray only until the hair is slightly damp. Keep out of eyes, face and away from scrotum. Repeat when needed. To prevent reinfestation, spray bedding, kennel and quarters thoroughly. Hit as many insects with spray as possible.

ACTIVE INGREDIENTS

Petroleum distillate	7.769
2,3,4,5-Bis (2-butylene) tetrahydro	
2-furaldehyde	240
*N-Octyl bicycloheptane dicarboximide	165
Piperonyl butoxide technical	100
Other cube resins	100
Pyrethrins	075
Rotenone	050
	8.500

INERT INGREDIENTS

	91.500
Total	100.000

*Equivalent to 0.080 (butylcarbityl) 16-propylpiperonyl ether and 0.020 related compounds.
