

Chemtrol

No. 20

**MICROORGANISM
CONTROL CHEMICAL**

DIRECTIONS:

For control of bacterial growths in industrial cooling water systems, use 0.0038-0.038 gals. of Chemtrol #20 per 1000 gals. contained water. Chemtrol #20 should be fed with a chemical metering pump directly into the sump or basin at any convenient location where good distribution can be attained. Feed may be on a continuous or an intermittent basis, depending upon the nature and extent of contamination, the degree of control required, and the type of system being treated. Individual evaluations of systems obtainable from the Zimmite Representative.

NOTE: Chemtrol #20 is intended for industrial use only. Do not apply to potable or domestic water systems.

ENVIRONMENTAL This product is toxic to fish. Treated **HAZARDS:** effluent should not be discharged to lakes, streams, ponds, or public water. Do not contaminate water by cleaning of equipment, or disposal of wastes. Use only as directed on label.

Do not reuse empty container. Destroy it by burying it with waste, or by burning it. Stay out of smoke or fumes.

ACTIVE INGREDIENT:

2, 2 - Dibromo - 3 - nitrilopropionamide 5%

INERT INGREDIENTS: 95%

Total 100%

Weight per gallon 9.6 lbs.

Weight of active ingredient per gallon 0.48 lbs.

EPA Registration No. 10238-20

EPA Est. No. 10238-OH-1

10238-TX-1
