

DIRECTIONS FOR USE

TERMITES: Mix 4 quarts Professional 46% Chlordane with 45 gallons water for a 1% solution. Apply at the rate of 1 gallon per 1 linear foot to a trench dug next to the foundation 1 to 2 feet deep and 8 to 12 inches wide. Dig trench 30 in. deep for building with deep foundation. Do not dig trench below level of the footing. Apply to infested wooden structures. Building having Basements or Crawl Spaces: Dig a trench along the outside of the foundation walls. In brick or hollow block or concrete foundations, dig a trench to, but not below, the footing. Then as the trench is refilled treat the soil at the rate of 4 gallons per 10 linear feet for each foot of depth. A trench 3 feet deep would require 12 gallons per 10 linear feet.

The objective is to establish a treated soil barrier which will prevent termite entry. Other critical areas may also require treatment. It is suggested that you consult the State Extension Service for advice.

Inspect area yearly to determine possible reinfestation.

Household Directions

Use at a dilution of 2 pints concentrate with 6 gallons water. Repeat as often as necessary for control of:
ROACHES and **WATERBUGS**-Thoroughly spray or paint infested cracks, hiding places, and adjacent exposed surfaces where pests crawl when they come out of hiding. **SILVERFISH**-Thoroughly spray or paint baseboards, behind shelvings, book cases and storage areas
ANTS-Thoroughly spray or paint trails and around door frames and window frames where pests enter. Treat openings around water pipes, heat ducts, electrical outlets and baseboards where pests enter from wall

PROFESSIONAL 46% CHLORDANE WATER MISCIBLE

Contains 4 lbs. technical Chlordane to the Gallon

Effectively controls Termites, Roaches, Waterbugs, Silverfish, Ants, Chiggers, Spiders and Centipedes.

ACTIVE INGREDIENTS:

Technical Chlordane*46%

Aliphatic Petroleum Hydrocarbons 50%

INERT INGREDIENTS: 4%

TOTAL 100%

* Equivalent to 27.6% octachloro-4,7-methano-tetrahydroindane and 18.4% of related compounds.

CAUTION: KEEP OUT OF REACH OF CHILDREN

Contact with skin causes toxic symptoms. Chlordane is toxic and can be absorbed through the skin. Harmful if swallowed. Avoid inhaling spray mists. Avoid contamination of food and food stuffs.

Do not use in edible products areas of food processing plants, restaurants or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed.

ANTIDOTE: External—in case of spillage on skin, wash with soap and water.
ANTIDOTE: Internal—Drink Emetic of Mustard and call a physician.

EMULSIFIES READILY IN WATER

This product is toxic to fish, birds, and other wildlife. Keep out of lakes, streams, or ponds. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water by cleaning of equipment, or disposal of wastes. Apply this product only as specifies on this label.

DO NOT REUSE CONTAINER. DESTROY
