Rjndel Ventures, lnc.
Foot of Constitution
P.O. box 2270
Washington, D.C. 20001

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an endorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) provided that you:

1. Submit all data required for registration/reregistration of your product under FIFRA section 3(c)(7)(B) when the Agency requires all registrants of similar products to submit such data.

2. Before you release the product for shipment bearing the approved labeling submit an accurate Confidential Statement of Formula for your product which demonstrates that your product is within certified limits for TID release rate which places it within the release rate limit imposed by the Organic Anti-Fouling Paint Control Act (OAFCA) of 1984. Your product was certified as being within the CAPC limit by the Agency in its letter dated June 6, 1989.

3. Submit acceptable prototype specifications and materials for a certification and training program for the use/disposal/removal of TBT anti-fouling paints and paint wastes within 180 days from the date of your application for conditional registration. Your application was dated December 16, 1995. The prototype specifications and materials must be submitted by January 29, 1996. The minimum elements to be addressed in the certification and training program are identified in the Agency’s Notice at 59 FR 59038.

BEST AVAILABLE COPY
4. Make the labeling changes listed below before you release the product for shipment bearing the approved label:

   a. On the front panel:

      1) Add the phrase "EPA Registration No. 10250-40."

      2) Move the "Restricted Use" statement "Restricted Use ... effective March 1, 1990" from the second paragraph right panel to the top center of the front panel. See item (9a) of "The Label" enclosure.

      3) Delete the line above the inert ingredient percentage.

   b. On the right panel:

      1) Move the sentence "Users must comply with all applicable OSHA requirements" from the first paragraph left panel to immediately following the sentence "It is unlawful . . . such vessel."

      2) Move the statement "During . . . sanitary landfill" from the second paragraph left panel to immediately following the "Users must comply with all applicable OSHA requirements" sentence.

   c. In the left panel:

      - The correct "Physical and Chemical Hazards" statement for a 79 °F flashpoint is "Flammable. Keep away from heat and open flame." The sentences "Close container tightly after use," "Keep container closed," "Store in a cool dry place away from sunlight" may be retained. However, delete the sentence "Use with adequate ventilation" because it appears in the first precautionary statements paragraph.

   d. In the first paragraph:

      1) Replace the sentence "Causes irreversible eye damage" with the sentence "Causes eye irritation."

      2) Delete the sentence "Remove contaminated clothing, and wash hands before reuse."

5. Submit one (1) copy of your final printed labeling before you release the product for shipment bearing the approved labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product bearing the approved label approved as part of your conditional
registration constitutes acceptance of these conditions. All products must bear such a label.

A stamped copy of the label is enclosed for your records. In order to be acceptable, your label must also bear the language as indicated in the changes listed at item 4 above.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Corrosive. Causes skin burns. Wear protective clothing such as glasses, long-sleeve cotton shirts, long pants, and hat. Causes irreversible eye damage. May be fatal if swallowed. Harmful if inhaled or absorbed through skin. Product may be a dermal sensitiser. Avoid contact with skin, eyes, or clothing. Avoid breathing spray. Wipe 6 coat or chips from standing canvas thoroughly with soap and water after handling and before eating or smoking. Use adequate ventilation. While spraying paint or sanding paint surface, wear a respirator jacket approved by the Mining Enforcement and Safety Administration and the National Institute for Occupational Safety and Health. Remove contaminated clothing and wash hands before re-use. Users must comply with all applicable OSHA requirements.

ENVIRONMENTAL HAZARDS

This material is toxic to fish. Do not apply directly to water by cleaning of equipment or disposal of wastes. Do not allow chips and dust generated during paint removal to enter water. Dispose of paint debris in approved landfill. During and after removal, do not apply or pour or burn or spread or burn or use or use in an aquatic environment. Following removal of old tin paint and/or application of new tin paint, methods must be employed which are designed to prevent release of tin paint into aquatic environment. Following removal of old tin paint and/or application of new tin paint, all paint chips and spent abrasives, paint containers, canned paint, and any other waste products from paint removal or application must be disposed of in a sanitary landfill or physical chemical hazardous waste facility.

KEEP OUT OF REACH OF CHILDREN

DANGER: PRACTICAL TREATMENT

If swallowed: Drink plenty of water, milk, or milk substitutes. DO NOT induce vomiting. Get medical attention. If in eyes: Wash with plenty of water. Get medical attention. If on skin: Wash with plenty of soap and water. Get medical attention. If inhaled: Remove victim to fresh air. Get medical attention. Give artificial respiration, preferably mouth-to-mouth. Get medical attention.

**SEE SIC PANEL FOR ADDITIONAL PRECAUTIONARY STATEMENTS**

STORAGE

Do not contaminate water, food, or feed by leaking containers. Store in a cool, dry place away from heat, sunlight, and open flames. Close container tightly after use. Do not use near heat or open flame.

For use in commercial or non-shipping only. Not for sale to use or storage by private applicators or other personnel.
