SPARTAN

PET CARE AND FARM USES

KENNELS, INCUBATORS, Poultry Houses, Stables: To sanitize, scrub clean; then rinse with 1/2 cup Spartan Bleach per gal. water; keep wet 5 min.

DRINKING WATER FOR POULTRY, LIVESTOCK: To disinfect, add 2 tbs. Spartan Bleach per 5 gal. water. Use glass, porcelain, plastic, rubber or concrete containers. Renew water daily.

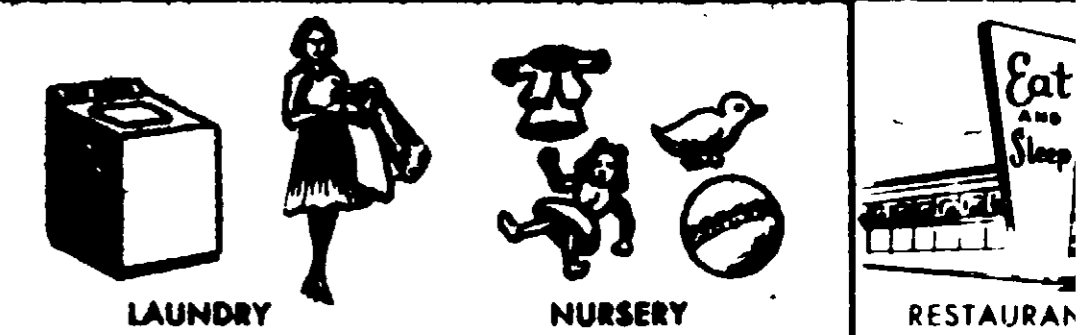

DAIRY, MILKING EQUIPMENT: Wash all utensils and equipment thoroughly clean. Then immerse (or keep wet) 5 min. in solution of 1 tbs. Spartan Bleach to each gal. water. This provides 200 p.p.m. available chlorine. Increase if required by Health Dept. Proportionate for stronger solution.

PRIVATE POOLS

To help keep wading pools sanitary, add 2 tbs. (1 oz.) Spartan Bleach for each 100 gal. water. Add to pool water before use; add 1/4 this amt. each hour during use. Treat swimming pool water as needed to maintain a 0.6-1.0 p.p.m. available chlorine residual at all times as determined by test kit.

MANY OTHER USES GIVEN ON GALLON LABEL
