

SANI-SOFT

(Bacteriostatic - Laundry Detergent)

USE DIRECTIONS: This compound is designed for use in commercial or home laundry machines. For top, front or wringer type machines add 3/4 cup (120 grams) for a standard (12 gallon) wash load to launder 10 pounds of dry fabric at the beginning of the wash cycle. Types of materials and water hardness will affect the sudsing action.

When used as directed, this laundry product will sanitize fabrics during the washing cycle, sanitize the wash water, impart a bacteriostatic finish to Staphylococcus aureus and Escherichia coli and leave a self-sanitizing residue on laundered fabrics in the presence of high humidity or moisture.

DO NOT USE this product with other soaps or detergents, since such mixtures may destroy the antibacterial properties of this compound.

DESCRIPTION: A white powdered low sudsing compound for use in commercial or home washing machines. Designed for removal of heavy soil and stains from fabrics used in homes, hospitals, nursing homes, athletic departments, meat, poultry and food plants. An excellent product which makes colors brighter and whites whiter; rinses easily, leaving no scum or film to gray clothes.

ACTIVE INGREDIENTS

n-Alkyl (50% C₁₄, 40% C₁₂, 10% C₁₆) bethels
benzyl ammonium chloride 1.84%
Sodium Metasilicate, Anhydrous 8.00%

INERT INGREDIENTS 90.16%
EPA Reg. No. 10254-3

DANGER:

SANI-SOFT

(Bacteriostatic – Laundry Detergent)

ACTIVE INGREDIENTS:

n-Alkyl (50% C₁₄, 40% C₁₂, 10% C₁₆) dimethyl
benzyl ammonium chloride1.84%

Sodium Metasilicate, Anhydrous8.00%

INERT INGREDIENTS90.16%

EPA Reg. No. 10254-3

DANGER:

KEEP OUT OF REACH OF CHILDREN

See side panel for antidote statement and other precautions.

Container Disposal: When empty.

Do not reuse container. Destroy when empty.

DANGER:

KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed. "May cause burns or damage to eyes. Causes skin irritation." Do not get on skin or in eyes. If contact with eyes occurs, flush with plenty of water for 15 minutes and get medical attention. If contact with skin occurs, flush with water. Avoid contamination of food.

FIRST AID:

If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

NOTE TO PHYSICIAN:

Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.
