

A highly concentrated insecticide scientifically formulated for control of the exposed states of roaches, weevils infesting stored food products, silverfish, flies, mosquitoes, ~~\_\_\_\_\_~~.

**WEEVILS & MOTHS INFESTING STORED FOOD PRODUCTS:** Clean areas to be sprayed, especially cracks, crevices and around machinery. To spray food storage areas, remove food products from shelves and racks. Spray these areas thoroughly with MANTEK MANASECT CONCENTRATE and replace food products. For packaged food, spray in such a manner that a light mist will fall upon the packages. For food products in sacks, spray thoroughly between and around the sacks paying particular attention to all cracks, crevices, walls, and any other places that might offer shelter to the weevils. Contact as many weevils as possible. After all the local areas of storage have been sprayed, close all windows and doors. Thoroughly fog the entire storage area, being extremely careful that all open food products are covered. After 10 to 20 minutes, sweep up and destroy all fallen insects. Repeat sprayings at least once a week or when reinfestation becomes evident.

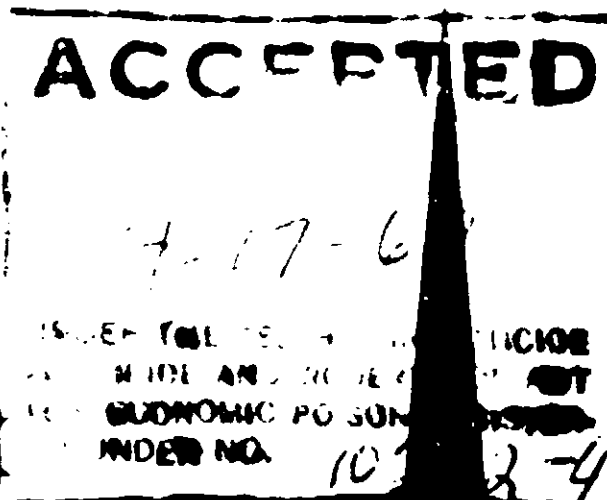

**TREAT UNLOADING, HANDLING, AND PROCESSING AREAS:** Spray the conveying, processing, and handling equipment ~~\_\_\_\_\_~~, as well as around the base of heavy machinery and equipment. After 10 to 20 minutes remove dead insects and run equipment to aerate before beginning operations.

**FOR ROACHES, SILVERFISH AND CERTAIN OTHER CRAWLING INSECTS:** Direct spray in such a manner as to penetrate all cracks, crevices, and other hiding places. Thoroughly fog around shelves, under sinks, refrigeration equipment, dishwashing machines, and bottle washers. Treat all returned bottle cartons and cases. Contact as many insects as possible. For badly infested areas, spray daily. During the summer months, spraying twice a week is advisable.

**FOR FLIES AND MOSQUITOES:** Close all doors and windows before spraying. Direct spray toward the ceil-

# MANASECT CONCENTRATE

**CAUTION:**  
KEEP OUT OF REACH OF CHILDREN  
(See Right Panel for additional precautions)

**ACTIVE INGREDIENTS: 100%**  
98.20% Petroleum Distillates  
.75% N-octylbicycloheptenedicarboximide  
.75% Technical Piperonyl Butoxide\*  
.30% Pyrethrins  
\*Equivalent to 0.60% (Butylcarbityl) (6-propyl-piperonyl) ether and 0.15% related compounds.

ing and continue spraying until area is thoroughly fogged. After 10 to 20 minutes, sweep up and destroy all fallen insects. Repeat spraying as often as necessary.

MANTEK MANASECT CONCENTRATE is a highly concentrated contact insecticide, formulated with pyrethrins and a synergist in a highly refined mineral oil base. MANTEK MANASECT CONCENTRATE is especially designed for use in steam vaporizers, compressed air sprayers, heat-generated fogging machines, and sprayers that produce extremely fine particle sizes such as the Multi-mist. MANTEK MANASECT CONCENTRATE, when used as directed, is recommended for use in bakeries, wholesale groceries, ~~\_\_\_\_\_~~, bottling plants, restaurants, and other industries that require a non-staining insecticide.

### CAUTION:

Harmful if Swallowed. MANTEK MANASECT CONCENTRATE is a combustible mixture and should not be sprayed near an open flame. Do not spray directly onto foodstuffs. Use as a space spray in food processing plants only when plant is not in operation. Foods should be removed or covered during treatment. All food processing surfaces should be covered or thoroughly cleaned before using. Do not use to treat bulk grain.

### NOTICE:

KEEP FROM FREEZING. If this product is stored in cold or freezing weather it may separate or thicken. This will not harm the performance. Before using, warm to room temperature and stir thoroughly.
