

**DIRECTIONS**

To make a 0.5 Emulsion, add 2½ gallons Heptachlor 2-E (2 lbs. actual Heptachlor per gallon) to 120 gallons water.

**FOR TERMITES:**

**1. Slab-Type Construction:**

- a. Apply 1 gal. of 0.5% Emulsion per 10 square feet as an overall pre-construction treatment under the slab and along the attached porches or entrance platforms.
- b. Apply 2 gals. per 5 lineal feet to critical areas under slab as pre-construction treatment, such as along inside of foundation walls and around utility entrances and interior partition foundation walls.
- c. Apply 2 gallons per 5 lineal feet in a trench along the outside of foundation walls, including entrance platforms and porches where the foundation is not more than 15-18 inches deep.

**2. Buildings with Crawl Spaces:**

- a. Apply 5 gals. per 5 lineal feet in a trench along the outside of foundation walls, including entrance platforms and porches where the foundation is not more than 15-18 inches deep. If over 15-18 inches but not over 30 inches, apply 4 gals. per 5 lineal feet. Do not go deeper than the top of the footing.
- b. Apply 2 gals. per 5 lineal feet as a trenching application to critical areas under the house, such as along the inside of foundation walls and around piers and utility entrances. If trench is deeper than 15-18 inches but not over 30 inches, apply 4 gals. per 5 lineal feet. Do not go deeper than the top of footing.
- c. Apply 1 gal. per 10 sq. feet of soil surface as a pre-construction treatment where the attached porches, entrance platforms, utility entrances, etc. have covering slab on fill of ground.
- d. Apply 1 gal. per 5 lineal feet of wall to voids in hollow masonry units of the foundation.

**3. Buildings with Basements:**

- a. Apply 1 gal. per 10 square feet as an overall pre-construction treatment under the basement flooring, attached porches, entrance platforms, utility entrances, etc. where slab fill is at ground level.
- b. Apply 2 gals. per 5 lineal feet in a trench along the outside of foundation walls, including entrance platforms and porches where the foundation is not more than 15-18 inches deep. If over 15-18 inches but not more than 30 inches, apply 4 gals. per 5 lineal feet. Do not go deeper than top of the footing.
- c. Apply 2 gals. per 5 lineal feet as a trenching application to critical areas under the house, such as along the inside of foundation walls, porches, entrances and piers. If trench is deeper than 15-18 inches but not over 30 inches, apply 4 gallons per 5 lineal feet. Do not go deeper than top of footing.
- d. Treat all voids in hollow masonry units of foundation at the rate of 1 gal. per 5 lineal feet of foundation.

Premises treated with 0.5 Heptachlor will give residual control for a minimum of five years.

**FOR CONTROL OF IMPORTED FIRE ANTS:**

**BROADCAST TREATMENT:** For the control of the Imported Fire Ant, use 1.25 lbs. actual Heptachlor (1 gallon Heptachlor 2E contains 2 lbs. actual Heptachlor) per acre as a spray. Apply as a soil treatment on lawns, cemeteries, golf courses, park areas and nurseries.

**MOUND TREATMENT:** Apply 3 gallons of 0.25% Heptachlor Emulsion to the entrance of the nest as well as an area 3 feet around it. If necessary repeat treatment 2 weeks after first application.

**WARNING!** Do not allow dairy animals being finished for slaughter to graze on treated land. Persons or pets should be excluded from area until Heptachlor has been worked or washed into the soil. Fish may be killed if their waters are contaminated with this product.

**PROFESSIONAL**

**HEPTACHLOR 2E**

**EMULSIFIABLE**

(2 lbs. HEPTACHLOR per gallon)

Active Ingredients:

Heptachlor (heptachlorotetrahydro-4, 7-methanoindene) .....	21.8%
Related Compounds .....	8.5%
Xylene .....	64.9%
Inert Ingredients: .....	4.8%
	100.0%

**WARNING! Keep Out of Reach of Children. See Side Panel for Additional Cautions.**

**WARNING:** May be fatal if swallowed. Do not breathe vapor, dust or spray mist. Do not get on skin. In case of contact wash immediately with soap and water. Do not contaminate feed and foodstuffs. Keep out of reach of children.

**ANTIDOTE:** In case of spillage on skin, wash promptly with soap and water.

**Internal:** Emetic of 1 tablespoon mustard in glass of water. Call a physician.

This product is toxic to fish, birds and other wildlife. Birds and other wildlife in treated areas may be killed. Keep out of lakes, streams or ponds. Do not apply where runoff is likely to occur. Do not apply when weather conditions favor drift from areas treated. Do not contaminate by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

Do not reuse empty container. Destroy it by burying with waste or burning. Stay away from smoke or fumes.
