**WARNING**  
**KEEP OUT OF REACH OF CHILDREN**  
**SEE LEFT PANEL FOR FIRST AID AND ADDITIONAL**  
**PRECAUTIONARY STATEMENTS**

05-23-1

Controlling cross contamination is of major house-keeping concern not only in hospitals, but in schools, institutions, and industry. Lemon Disinfectant Cleaner is formulated for this problem area. It both cleans and disinfects effectively when used as directed. Its hard surface disinfecting action will reduce the hazard of cross-infection.

#### CAUTION

Keep out of reach of children. Causes eye and skin irritation. Do not get in eyes, on skin, or on clothing. Harmful if swallowed. Avoid contamination of food.

#### FIRST AID

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash all contaminated clothing before reuse. If swallowed, do not induce vomiting. Drink large quantities of fluid and call a physician immediately.

Add two ounces per gallon water.  
Apply Lemon Disinfectant Cleaner to walls, floors, and furniture with a cloth or mop. For heavily soiled areas, a preliminary cleaning may be required.

At two ounces per gallon use-level, Lemon Disinfectant Cleaner is effective against *Pseudomonas aeruginosa*, *Staphylococcus aureus*, *Salmonella choleraesuis*, and *Trichophyton interdigitale*. Germicidal performance against the first three organisms has been confirmed by the AOAC Use Dilution Test. Fungicidal performance against *T. interdigitale* was determined by the AOAC Fungicidal Test.

Rinse empty container with water before discarding it.

**Mfg. by Venus Laboratories Inc.**  
**855 Lively Blvd. Wood Dale, Illinois 60191**
