Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, this product is registered with the EPA Reg. No. 10292-31

#### DISPOSAL

Do not reuse empty container. Pesticide spray mixture or rinsate that cannot be used or chemically reprocessed should be disposed of in a landfill approved for pesticides or buried in a safe place away from water supplies. Triple rinse (or equivalent) container and offer for disposal in approved landfill or bury in a safe place.

#### OPEN DUMPING IS PROHIBITED

CONSULT FEDERAL STATE OR LOCAL DISPOSAL AUTHORITIES FOR APPROVED ALTERNATIVE PROCEDURES.

#### GENERAL

Use 2 to 3 quarts per acre (1 1/2 to 2 1/2 ounces in 1-2 gallons water, per 1,000 sq. ft.) in sufficient water for uniform spray coverage. Repeat applications may be necessary. Use lower rate for easy-to-kill species, i.e. dandelion and plantains. Use higher rate for more effective general control of weeds.

Use preferably in the spring or fall when weeds are actively growing. The killing action is more rapid when applied on warm clear sunny days than when weather is cool, cloudy or wet.

NOTE: Do not use on newly seeded lawns. Do not mow turf for several days before or after treatment. In some areas Dichondra, clover, bent grasses, carpet buffalo, and St. Augustine grasses may be injured.

#### CAUTION

Spray equipment used in applying this product should be thoroughly cleaned before using for any other purpose. Use repeated flushing with soap and warm water or suitable chemical cleaner. It is best to use a separate sprayer for application of insecticides and fungicides.

Follow directions carefully.
